

秋

■邱城

秋,没有春的莺燕,没有夏的骄阳,没有冬的白雪,年复一年的心甘平凡。爱秋,爱它的舒缓,爱它的五彩斑斓,爱它的处意淡然。

舒缓,因为秋的温度。没有大热大寒,只有温热微凉。在和秋相伴的日子里,简单的外套,温煦的日光,轻便的单车,迎面的柔风,日子里缓缓地尽是舒适感。

五彩斑斓,是因为秋的颜色。这是一个色彩丰富的季节,如果这样说起让你觉得木然,不妨看看窗外的叶,那片片摇曳的叶子变红变黄,最终变彩。

秋日里,单骑而行,发丝飞舞,衣角微扬,耳边叶声婆婆,轮下五彩荡漾。惬意似然,怎不爱秋?

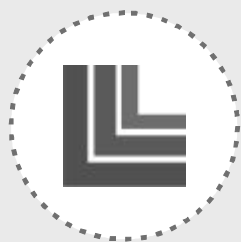

更有爱其淡然者,秋如君子,温润如玉。在四季循环中,安然处之,不慕春之曼妙,不逐夏之炎炎,不随冬之皑皑,看似中庸平常,却内怀姹紫嫣红、果实丰硕。

可一年四季,不按人意,遵循自然,终有时日送秋而归,也无需颓然不舍,心存秋日舒缓,安等下季再见。

三联学院召开教育实践活动领导班子 专题民主生活会

10月13日,三联学院召开教育实践活动领导班子专题民主生活会。省委第十九督导组组长汪良发、副组长李仁群及成员到会指导,学院董事会董事长余皖生参加会议,会议由学院党委书记桂宁东主持。

会议首先传达学习了省委《关于在党的群众路线教育实践活动中开好专题民主生活会的通知》和省委书记张宝顺参加省科技厅党组专题民主生活会发表的重要讲话。桂宁东代表学院领导班子做对照检查,深入查摆“四风”方面存在的突出问题。在形式主义方面,主要是以开会和发文来推动工作,会议多,文件多,检查和落实抓得不实;在官僚主义方面,主要是与基层干部和师生员工联系少,到基层调研浮在表面,布置工作有时脱离基层实际,解决基层和师生员工实际困难不够;在享乐主义方面主要是精神有些懈怠、工作进取心下降,改革创新精神不强;在奢靡之风方面,主要勤俭节约意识淡化,厉行节约反对浪费的教育管理不到位。并对存在问题的原因进行了剖析,明确了整改方向和措施。

班子成员聚焦四风问题逐一进行对照检查,成员之间认真开展了批评。

省委第十九督导组组长汪良发进行了点评,他说,今天的民主生活会开得很好、很成功,班子成员都能深刻查摆剖析“四风”方面的突出问题,做到不怕揭短亮丑,同志之间以真诚的态度进行批评和自我批评,达到了“出出汗,洗洗澡,治治病”的效果。生活会有三个特点:一是思想重视,准备认真;二是个人的剖析深刻到位,相互帮助诚恳;三是注意把握了民办院校的特征。他要求在以下几方面下功夫:1、注重学习,以理论学习的成效打下为民服务的基础;2、立足整改,制定整改方案,抓紧落实;3、提振信心,提升精气神,要有攻坚克难的勇气。4、结合民办高校特点做好各项工作。

最后,桂宁东作讲话,他要求学院领导班子继续深入学习贯彻习近平总书记的一系列重要讲话精神以及省委书记张宝顺讲话精神,贯彻督导组汪组长讲话要求,以这次专题民主生活会为契机,做好活动第二环节的各项工。要制定整改任务书,在一定范围通报班子民主生活会情况,指导院系班子开好民主生活会,为转入活动下一环节打好基础。

痴心一片终不悔 只为桃李竞相开

——记红会卫校基础护理教研室青年教师徐惠敏

徐惠敏是红会卫校基础护理教研室的青年教师,来卫校执教前在合肥市第一人民医院滨湖分院从事护理工作,是一位临床经验丰富的“双师型”教师。来我校从事教学工作以来,她始终以火一样的热情,百倍的努力,百倍的干劲勤勤恳恳地耕耘在教育第一线,在“教书育人”这个平凡而神圣的工作岗位上默默地挥洒汗水,哺育学生。三年来,她以自己的行动出色地履行了一个教师的职责,自己的工作实绩赢得了学生和家长的信任,得到了学校和社会的肯定。2012年,徐惠敏代表学校参加合

肥市护理技能大赛教师组比赛,荣获教师组比赛二等奖,同年,她所指导的学生武雅楠荣获全国护理技能大赛二等奖;2012年12月,荣获合肥市中职院校精品课程说课比赛一等奖,并荣获2012年度安徽三联集团“优秀员工”的光荣称号。

一、激情满怀,无私奉献

徐惠敏热爱自己的工作,如同热爱自己的生命。早在孩提时代,教师的圣洁和崇高品质就在她

的心中根深蒂固。那时,她就在心中萌发了当一名人民教师的愿望。站在神圣的讲台上,她不曾忘记自己的誓言,不曾动摇过这颗育人的拳拳之心。凭着这种对教育的赤诚之心和强烈的责任感,徐惠敏在平凡的教学工作中永远保持着一种崇高的敬业精神、忘我的牺牲精神、无私的奉献精神。她告诉自己要用心地做教育中的每一件小事、耐心处理学生的每个问题、用全部的爱呵护着每一颗幼小的心灵。

二、率先垂范,身教感染

在教育学生时,徐惠敏始终坚信“喊破嗓子,不如做出样子,要想正人,必先正己”。所以,无论是课上还是课下,她总是以自己的人格力量感染学生,注意自己点点滴滴言行的影响。近一年来,徐惠敏明显地感觉到,自己的言谈举止,既处于学生最严格的监督之下,又处于时刻被学生效仿之中。所以,当她要求学生努力学习时,自己首先做到了忘我的工作态度和刻苦钻研的精神;当她叮嘱学生遵守纪律时,自己首先做到了遵守校纪班规……当徐惠敏表扬学生时,同学们的回答都是一样的,都说是和徐老师学的。这句话震撼着她的心灵,让她感觉到无比的欣慰与自豪。因为徐惠敏从学生的身上看到了自己的影子,同时也验证了“言传身教、身行一例、胜似千言”的至理名言。

三、严爱相济,教书育人

教学工作是一门艺术,只有严爱相济,才可赢得学生的信赖,走进孩子们的心灵,才能在教书的同时育人。教学工作使徐惠敏深深体会到:只有给学生的爱是发自内心的,才会让学生感受到爱,体会到被爱之乐,他们才会学着去爱别人。“金凤凰”

要爱,“丑小鸭”更要爱。徐惠敏喜欢优生,但不排斥学困生,对于暂时的学困生更是倾注了满腔爱心。她深深地懂得:学困生的自尊心是非常脆弱的。“上课提问多鼓励;课后辅导要耐心;犯了错误不急躁;错误严重不发火;屡次不改不灰心;问题不解决不撒手”。这是徐老师转化学困生最深的体会。在关爱学困生的同时,她还兼顾着全体学生的发展。在教学中,她结合教材的难度和学生的实际水平,对不同层次的学生设计了多种深度不一的教学方法,让尖子生吃饱,学困生接受得了,争取立足中等生,扶持差生,满足优生。

四、追求卓越,奋力翱翔

“给学生一杯水,教师就要准备一桶水”,校领导常说的这句话为徐惠敏指明了奋斗的方向。为了做一名学生满意的教师,她在自己的岗位上默默奉献、辛勤地耕耘,把自己全部的精力都花在学生身上。教学中,她潜心钻研教材,反复研讨新课标,大量订阅教学刊物,坚持业务自学,认真做好笔记,广泛汲取营养,及时进行反思,转变教育观念,捕捉新的教学信息,勇于探索教育规律,大胆采用新的教学手段。她常向同科老师学习教学经验,借鉴优秀的教学方法,提高自己的教学能力和业务水平。同时积极参加各个公开研讨课,教学技能不断提高。

“路漫漫其修远兮,吾将上下而求索”是徐惠敏老师追求的境界。作为教育工作者,她丝毫没有懈怠,也不敢懈怠,她深知后面的路还很长。在今后的教育教学工作中,徐老师将立足实际,认真搞好教学,创造性地开展学校的教育教学、教改科研工作,在教育这片田园里勤奋耕耘,积极探索,奉献无悔的青春。徐惠敏坚信,只要辛勤耕耘,挥洒汗水,一定能做一名优秀的人民教师,让桃李香满天下!

积极进取 团结一心

——记安徽三联学院招生办公室

它在 2011、2012 连续两年全国普通高校在皖招生网上咨询活动中荣获“安徽省招生院校网上咨询答疑工作先进集体”称号,它在 2012 年度考评中荣获“安徽三联学院先进集体”以及“安徽三联集团先进集体”称号,它在国家教育部科技发展中心主办的“高校科研实力与考生择校”2012 年高考招生咨询大型公益系列活动中荣获优秀组织奖,它统筹招生工作安排,它直面考生及家长的各种咨询,它就是安徽三联学院招生办。

初踏入招生办公室,呈现的是一副整洁、温馨的画面。在这个年轻化的办公室里,四位工作人员忙而有序地工作,整个办公室都充斥着浓浓的学习氛围。这样一个团队是如何撑起招生工作的繁重任务,获得了种种荣誉称号?

领导重视 部署周密

历年来,教育集团和学院领导都高度重视招生工作,成立了由金会庆院长亲自担任总指挥的招生工作指挥部,全面部署招生工作。每年春节过后,招生工作指挥部便开始着手招生准备工作,对高校招生的政策和形势进行了解、分析,学习借鉴兄弟院校的成功经验,并对近年来省内各地区的生源情况进行调研和分析,制定详细的招生计划。招生工作指挥部始终秉承“勤勉务实、高效廉洁”的工作理念,明确“提升质量、稳步发展”的工作思路,继续推行扁平化管理改革,发挥院系的主体地位与作用,为圆满完成招生任务奠定了基础。

详细规划 合理安排

招生工作贯穿全年,特别是从 3 月份至 8 月

份,招生办公室面临着“时间紧,任务重,人员少”三个难题。招生办的工作人员并不退缩,扎扎实实做好招生工作的各项前期准备工作。他们结合教育集团招生指挥部的统一安排,制定了详细的招生计划以及招生工作实施细则,并组织了招生工作培训,主要就招生工作的重要性、招生形势、招生专业、招生技巧、招生纪律、学院特色等方面对招生人员进行了全方位培训,使招生工作得以科学合理、有序规范地开展,工作效率与业绩得到了大幅提高。经过合理的安排计划,他们将“时间紧,任务重,人员少”问题成功攻克了。

多管齐下 提高宣传

招生工作的开展还依托于有效的宣传工作。采取多渠道、多方面、多层次的宣传方式,加大宣传力度,一定幅度提升了学院知名度,也为招生工作奠定了良好的基础。

期间,招生办精心设计并印制了招生简章、张贴画、易拉宝等,宣传材料形式多样、内容生动活泼、图文并茂,最大限度地突出了学院亮点。

在网络媒体宣传方面,根据招生工作不同阶段需要,分别在安徽教育网、中国教育在线、江苏教育网、中安教育网、新安传媒网、万家热线、网易等主流媒体进行宣传,发布新闻 41 篇,并在学院官方微博及时解答考生疑问、发布招生相关信息,进一步提高了学院知名度。

在平面媒体宣传方面,先后在安徽日报、安徽青年报、新安晚报、合肥晚报、合肥日报、市场星报等平面媒体进行宣传,宣传内容包括学院新闻、学院简介、领导专访、招生简章、招生计划等,扩大了

宣传的类型和范围。

与此同时,对学院官网进行了版面优化,及时更新内容,最大限度地宣传学院亮点、重大活动和办学特色;开通了招生直通车和QQ咨询平台,在招生办网站及时公布招生计划、招生章程、招生政策、历年资料等相关信息,及时更新省教育厅和省考试院发布的相关高考信息以及学院最新动态,让考生通过学院官网全面了解学院。

严格录取 高效反馈

从招生计划申报、分省份专业计划核实、招生投档、阅档、退档、专业确定、录取、计划调整、录取查询等全部环节均采取严格的安全防范措施,委派专人保管与考试院联络的账号、录取密码钥匙,严格按照教育主管部门的要求,实施阳光录取工程,确保录取工作的公平、公开、公正。

每年的录取工作都持续近两个月,为了让考生能在最短的时间内知晓录取结果,录取人员冒着酷暑高温,不辞辛苦,各类各批次的录取均能在第一时间阅档并及时上传录取名单,比兄弟院校提早结束录取,比省考试院提前发布录取名单。细心认真的工作人员不仅顺利完成录取任务,并保证了录取工作的及时准确,学生退档率低,受到了省招生考试院的好评。

为了提高报到率,录取结果公示之后,招生办

要求招生人员及时电话联系被录取的考生,并询问考生对录取结果的满意程度。对于家庭经济困难的同学,学院也提供助学贷款以及助学金补助等补助机会,让每位同学都有学可上。同时,招生办工作人员考虑到考生的信息安全问题,会提醒考生进行正确的录取信息查询,防止考生及家长受骗。对于延迟报到的同学,招生人员也会进行跟踪查询以确保学生顺利报到。

积极进取 团结一心

人少但力量大,招生办公室取得的优异成绩有赖于他们集体的努力。招生办主任金华在接受采访时说:“能够顺利甚至是超额完成招生任务离不开各级领导的高度重视、正确指导和大力支持、全体招生人员的努力以及招生办的工作人员犹如兄弟姐妹般的相处,工作上互帮互助,目标一致。”他表示:自己除了负责全院的招生工作,还亲自奔赴招生一线。因为只有真正深入到招生一线,才能切身感受招生工作的艰苦与困难,才能最快速找到解决办法。我想正是这个积极进取、团结一心的团队给我们带来了更多朝气蓬勃的年轻面孔,提高了学院的声誉,助力着学院的发展,先进集体的称号,他们当之无愧。

有趣的日语

随着我国和邻国日本之间各领域的交往不断加深,特别是日本的电影、动画片引入中国以来,对日语感兴趣的人越来越多且有逐年增加趋势。所以,下面我想与大家分享一下“有趣的日语”这一话题。

有趣的日语词汇

日语中,有许多我们中国人熟悉的汉字,像:自由、人、手、口等等,这些单词跟我们的汉语意思是相同的,也许有些人以此为依据,认为日语很简单,可是还有相当一部分词汇,它的写法跟汉语一样,但意思却相差甚远,如:大手(汉语意思是大型厂家)、汽车(汉语意思是火车)、丈夫(汉语意思是结实)、新闻(汉语意思是报纸)、床(汉语意思是地板)、是非(汉语意思是务必、无论如何)、放心(汉语意思是精神恍惚)等,我觉得更有趣的是日语中的“娘”,汉语是“女儿、姑娘”的意思,另有些容易写错的日语汉字,如:提唱(中文是提倡)、台頭(中文是抬头)、地図(地图)、处理(处理)、紹介(介绍)等等。

语言表达男女有别

日本是个以男人为中心的社会,在语言中也很明显的感觉到男人处于强势地位。其中,女性用语的“制度化”就是代表。1853年,日本被欧美的舰队撞开了国门,十五年后建立的明治政府强烈地意识到了富国强兵的重要性。为了充分利用有限的人力资源,政府制定了男主女辅、男外女内的分工原则。1892年的《小学修身书》教育女性“妻子应该全力以赴照顾家庭以助丈夫出人头地”。“从明治时期到大正初期,女性语言是和女子教育结合在一起的……以天皇为首的家父长制为女性铸造了贤妻良母与

‘女性用语’的模版。”也就是说,为了富国强兵及保证男子在社会家庭中的绝对地位,统治者通过教育把谦卑贤良的思想灌输给女性,使女性主动地使用谦卑的语言,导致了女性用语的普及即“制度化”。与主张自我的男性用语相比,女性用语婉转、不主张自我,是说话人向听话人表示尊敬的语言。因此,男人说话比较粗犷,女性则温柔、亲切。如果你不懂,用错了话,女人用了男性用语会被认为是“假小子”,相反男人用了女性用语会被认为是“娘娘腔”。

句子长短可判断亲疏关系

日本是个礼仪之邦,说话用词都非常的小心,我们可以从对话的用词当中,知道说话的两人之间的亲疏关系。因为一样的意思会因为对象不同,而有很多种表达的方式。日本人会根据对象来选择用词,如果对方是自己的朋友、家人,一般会用简短的话语;如果感觉对方是不熟悉的,就会很有礼貌,语言表达上多用敬语,用词就变长了;如果对方是自己的长辈或是上司,还会把他们要做的动作改成“尊敬语”,把自己的动作改成“谦让词”,因此用字就更长了。

听话要听到最后一个词

中文的句子是主谓宾结构,而日文是主宾谓结构。日文中的动词常常放在句末,例如我们在电影、电视中看到的“花姑娘大大的有”,就是模仿日语的动词后置,译成正确的中文应该是“有很多美丽的姑娘”。所以听日本人说话一定要听完最后一个词,才能知道他的意思。

回望《秋菊打官司》

关于这部文艺片，外界的定义很高，它展现了中国当时的社会风貌，宣扬了现代女性用法律维权意识。

但是笔者看来，站在2013年的角度去欣赏1992年出品的电影，时隔近二十多年，有些东西远去，有些东西犹在，岁月总是在不经意间改变着我们什么，却又留给了我们什么，仿佛身后的尾巴，自己知道它的存在但却看不见。

影片沿袭了张艺谋文艺片一贯的风格，浓厚的乡土气息，大胆鲜艳的颜色搭配，镜头处理得细腻到位，大俗中透着大雅。故事的情节很简单，村长王善堂（雷恪生饰）殴打了秋菊（巩俐饰）的丈夫万庆来（刘佩琦饰），于是秋菊走上了漫长而又曲折的打官司之路。年三十晚上，秋菊难产，在村长的帮助下平安生下男婴，秋菊因感动而原谅了村长，结果却在孩子满月酒那天，村长被警察带走了。没有曲折的情节，没有婚外情三角恋，戏剧的矛盾冲突也不是十分强烈，但却质朴感人。就是这样的小成本的文艺片却在当时获得了满堂彩！先后在国内外拿奖。

影片中秋菊代表了新世纪女性的形象，她倔强不服输，爱憎分明，虽然是个目不识丁的村妇，但是不畏强权，敢于用法律维护自己的权利，这在当时是十分有进步意义。同时她又脱离不了时代的局限性，在法律与情理中有些犹豫徘徊。全片人物说的都是西北方言，大多镜头采用写实的手法，人物语言也很有特色，插曲播放的西北民歌，热情又荒凉。

尤其是秋菊进城里的时候，90年代初期，改革开放没有多少时间，行人来往的衣着很单调，特别是在县里，男人大多中山装，颜色或蓝或黑或绿。发型，其实也谈不上什么发型了，全是自然生长，自生自灭的。女性的服饰也很单调。但是市里情况就好点，来来往往的自行车。机动车，城里一些时髦的女性烫的卷发，类似于费翔冬天里的一把火那种。更有前卫的染成了金黄色。特别是有一组卖年画的镜头很有味道，前一幅还是伟人毛主席的肖像，下一个镜头却是西方两个情侣赤裸激情相拥的海报，笔者认为这是老谋子故意展现当时人们的思想从保守向开放过度的时期所特有的精神和审美。从秋菊一开始被人力车夫骗到几次遇见好心人的帮助，导演还是向我们传达了一些精神，虽然打开国门必然有些不好的东西进来，但是总体上还是好的多，而且这也是必须之举，对此是抱着支持的态度。

片中也大量展示了西北风情，如以面为主食，红红的辣子，大暖炕，婴儿的虎头鞋以及孩子满月时的类似抓阄一个仪式的穿馍圈，以此来长命百岁。

不管过了多少年，《秋菊打官司》都不会过时，永远都会在电影的历史长河里占据一席之地。每个时期都有属于它自己的烙印。这样的经典总给后人留下许多回忆跟回味，但愿这样的岁月精品在当今商业片，偶像剧泛滥的年代里不会湮灭。

Autumn

Without spring's swallows, summer's hot sunshine and winter's snow, I remain quiet in autumn. I love autumn because it is an easy and comfortable season with a colorful world. Look out of the window; you can see colorful leaves such as green, red, and yellow, even brown. The leaves first turn yellow and then brown and then red. A colorful autumn!

Under the gentle breeze and warm sunlight, with a casual jacket, I ride a bike here and there. Such a comfortable season! I cheered.

Some people especially enjoy the tranquility of autumn, keeping an easy and comfortable life without envying others' success in social status and wealth.

Although autumn is the most fruitful season, it is certainly followed by winter. At such time, there is no need to be disappointed for autumn will come back very soon.

ASU Holds Seminar on Specialty Construction

On October 29, Anhui Sanlian University (ASU) held a seminar on 2013 Specialty construction under Prosperity Plan for Anhui Higher Education to analyze its current situation and feasibility. The attendees included special guests Zhang Weihua, executive vice dean from Traffic Engineering College, Hefei University of Technology and Chen Minsheng, director from Office of Teaching Affairs, Hefei Normal University. These two experts, joined with Professor Yi Youmin and 5 other experts from Sanlian University formed an expert group to discuss about the two new majors in Sanlian University. This meeting, chaired by Cai Wenfen, director from Office of Teaching Affairs, also was attended by assistant President of ASL Jiang Fagen and some teachers in charge of the two projects.

In the meeting, the teachers in charge of the two specialty constructions, Traffic Engineering and Electrical Engineering and the Automatization, respectively gave a detailed account of the specialty construction in several aspects such as construction objectives, construction plan, scheduling, anticipated results and budget planning.

The expert group pointed out that the construction budget needed to meet the demands of construction requirements set by Anhui Education

Department; the connotation needed to be in agreement with the project construction guidelines; talent training needed to have clear objectives, qualified teaching staff and platform; practical teaching system and lab construction should also be well prepared for the specialty construction. Meanwhile, the expert group stressed the importance of focusing on students' all-round development, preparing them to better serve the society and fulfilling our university's goal to train practical talents.

At the end of the discussion meeting, Professor Yi Youmin concluded that this "New Specialty Construction" was the first time that Sanlian University had gained the provincial budget support. The specialty construction should strictly follow the requirements set by Anhui Department of Education, set a clear orientation for the major, have concrete objectives for the students, and strive for more features of the major. Through specialty construction, Sanlian University aimed to elevating the discipline level. In the meantime, qualified teaching staff would be trained to assure the smooth development of the new specialty construction.

ARCMS Leaders Came to the Grassroots for Better Development

In line with the Party's mass line principle, leaders from Anhui Red Cross Medical School (ARCMS) came to the grassroots to investigate and survey from September 2 to September 6, with an eye to collecting information and coping some difficult issues restricting the school's devel-

opment.

This special visit to the grassroots was themed on better serving the people, dealing with concrete issues and going against corruption. It centered on discovering the prominent problems that were bottleneck to the school's development

and solving them, and aimed at meeting the demands of the teachers and students. Through visiting the grassroots and collecting various opinions, the school leaders were determined to find out the bottlenecks to the school's development and push forward further reform and development. During the twelfth five-year plan, the school also intended to elevate its development to a new level and create a better future for itself.

Chen Xianjun, director of ARCMS, gave out four tasks for this grassroots investigation and survey. Firstly, we should have a deeper investigation. The investigation needed to be comprehensive, covering many people from different posts,

but also in depth. There should be zero-distance contact with the grassroots. We need see, hear, ask, feel and experience by ourselves, which would assure a good survey. Secondly, we should focus on the prominent problems first. There were problems which restricted the school's development and were listed as top concerns for teachers and students, and those were our priorities. After the investigation, those problems and their tackling methods should be presented to the staff. Thirdly, we should draw up reform programs. According to the existing problems, concrete reform programs should be formulated which set clear responsibilities for departments and persons in charge, concrete methods, work objectives and time limit. And they should be carried out timely along with reform and innovation and transforming style of work. Fourthly, we should set up regulations and carry them out. Reforming development ideas and grasping the rules, the school should set up clear regulations to ensure its standardization and normalization, helping push forward its further development of being an excellent medical school.

Two Textbooks Compiled by Teachers of ASU of Honor

Recently, it was reported that two textbooks, *Networks Principles and Application*, (with Mr. Xue Feng, from Information and Communication Technology Department of Anhui Sanlian University, as both the co-author and subeditor), and *Network Principles and Applied Training* with Mr. Wang Honghai (from the same department as both the co-author and subeditor) won project approval from the Ministry of Education for national textbook project for the 12th five-year plan vocational education. This is the first time that ASU won such kind of proposal in engineering textbooks.

The selection of text books for vocational

schools during the 12th five-year plan is an important element of the Quality Project for higher education. And it also serves as a significant indicator for university development assessed by the Vocational Education and Adult Education Agency. Winning the approval not only testifies that the university has achieved great success in course construction, but also sets an example for the other majors in Information and Communication Technology Department.

ASU Won Great Awards in Robot Competition

On October 13, 2013, the fifth Lin Xiang Cup Anhui Robot Competition and National Robot Competition Invitational Tournament came to an end. Five teams from Anhui Sanlian University (ASL) participated in the contest in three events, namely Intelligent Vehicle Track and Field Contest, Intelligent Vehicle Parking Contest, and Mechanical Arm Carrying Contest. And they gave excellent performance and won fantastic awards, with one First Prize, one Second Prize and two Third Prizes.

In order to give play to the best performance, the instructing teachers and students from Computer Science and Technology Department of ASL began to prepare for the competition from early the summer vacation. Though the past summer was scorching hot, they did not cease their efforts. Several weeks before the competition, both teachers and the students gave up their weekend, devoted themselves to improving the performance of the robots through constant program modification and parameter testing, which undoubtedly laid

a solid foundation for their achievements in the competition.

In the Intelligent Vehicle Track and Field Contest and Parking Contest, they were faced with competent and experienced opponents with professional automatic control background. Though it was their second time to participate in this big event and they only had one year's professional learning, ASL students remained calm and displayed their due capacities. Eventually, their efforts paid off. They got one Second Prize and two Third Prizes respectively. What's more, Sanlian students got the first place with the shortest time 19.20s in the Mechanical Arm Carrying Contest.

It was reported that this competition has drawn over 100 teams from more than 20 universities in Anhui province, including Hefei University of Technology, Anhui University, and Anhui University of Technology.

Xu Huimin: A Devoted Teacher

Ms. Xu Huimin, a young teacher from the Basic Nursing Department in Anhui Red Cross Medical School, is an excellent teacher with much practical clinical experience. In prior to her teaching career, she used to work at the First People's Hospital in Hefei City, Binghu Branch as a nurse. Since she changed her role to a teacher, she has been dedicated to her work with unquenchable passion and love. And she has shown to us the definition of a teacher. For the past three years, she has worked whole-heartedly and her efforts paid off. Xu enjoys a good reputation among students and their parents, as well as the recognition from the school and the society. Owing to her excellent performance, she got the second prize in Teachers Group from the Nursing Skills Competi-

tion in Hefei city in 2012. In the same year, a student named Wu Yanan, under her instruction, won the second prize in the National Nursing Skills Competition. In December 2012, she obtained the first prize in the Teaching Plan Presentation for Secondary Vocational Schools in Hefei city. Moreover, her performance also won her the 2012 Annual Excellent Staff Award in Anhui Sanlian Group.

Work with Passion and Devotion

Xu's love towards teaching could be traced to her childhood, with the thought that teaching was a holy job and that a teacher must be responsible, moral and devoted. And her passion

never ceased after she really became a teacher. Bearing in her mind those noble qualities, she treated her work with a strong sense of responsibility, professional ethics and unselfish devotion. Starting from the slightest matter among the students to some big issues, she would try her best to cope with them properly.

Set a Real Model for Students

In teaching, Xu holds the belief that education starts from herself, and personal behavior could speak louder than thousands of words. Therefore, she is aware of the potential influences she has on the students, and sets high moral standards for herself. For instance, when she asks the students to study hard, she herself needs to be devoted to work first; when she requires that students obey the rules, she would observe the school's regulation and work ethic first. By doing these, she has set a good example to her students. Gradually, she also witnesses the improvement of her students. But when Xu praises her students in terms of their good behaviors, she gets the same reply: "you did these, and we are learning from you. It is you who deserve the credit". Whenever she hears this, Xu is overwhelmed with pride. And now she could better understand the saying "teach others by one's own example".

Vary Teaching Methods for Education

It is generally believed that teaching is an art. Only do we combine love and principles together can we achieve success in educating students. Xu believes that the first step in education is to win the students' trust, while genuine love is the only access to it. Three years' teaching gives Xu the enlightenment that only by giving students genuine love can the students feel the love and pass that love down. Whether the student is excellent or not, she gives them equal

love. She understands that for those who have bad academic performances, they may have low self-confidence and long for encouragement. Therefore, in class, she pays special attention to those special students by asking them proper questions and giving extra guidance after class. She knows well that they need more patience and love from teachers, and she is willing to help. Besides, aware of students' different levels of understanding, Xu has created her own teaching method to cater for their different needs. The top students are presented with some challenging questions, the average-achievers can absorb much during the class, while the underperformers can understand and follow the teacher in class.

Strive for a Brighter Future by Self-improvement

"Only when you have bucket of water can you provide the students with a cup of water", that is the encouragement given by the school leaders. Xu sticks to this rule and always strives for her self-improvement in teaching. In order to be a qualified teacher, she is motivated in her profession. Absorbing herself in the textbook, researching on the new teaching requirements, transforming some educational ideas, getting rid of some conventional teaching methods and making new attempts in teaching, Xu has tried all these. Moreover, she is willing to ask for guidance from some experienced teachers and constantly improving her teaching methods. What's more, she also takes an active part in many teaching competitions and seminars, with an aim to keep up with the latest trend in teaching. Just as an old Chinese saying goes, "there is a long road ahead of me, and I will never cease my exploration". Xu believes that there is still a lot to learn and improve, but she is ready to explore more.
