

## 国之强健路 吾辈当自强

“无论影子有多长，根永远扎根在心里。”爱国，作为中国人最深层、最持久的情感，是一个人立德之源、立功之本。拳拳爱国心，殷殷报国情，构成了一个人存浩然之气、立鸿鹄之志、成不朽之业的精神源泉。我们生在国旗下，长在春风里，眼中有光，心中有梦。

我们的祖国并非人间乐园，但每一个中国人都肩负着将其建设成为乐园的使命。在一段回忆中，年仅十二岁的周恩来在校长询问大家为何而读书时，他满怀激情地回答：“为中华之崛起而读书。”是啊，犹记新中国成立之初，一根火柴叫洋火、一根钉子叫洋钉、一把雨伞叫洋伞，当时的生活必需品无一不打上“洋”字的烙印。然而，经过中国人民的不懈努力，如今中华雄狮已傲然挺立于世界民族之林。历史上，许多杰出的爱国者都怀揣着对国家和人民的深厚情感，他们以国家大事为己任，勇往直前、不畏艰险、保卫祖国、关注民生福祉。在当今时代，我们仍需铭记先贤教诲，在逆境中迎难而上、发奋图强，在顺境中开拓进取、乘风破浪。

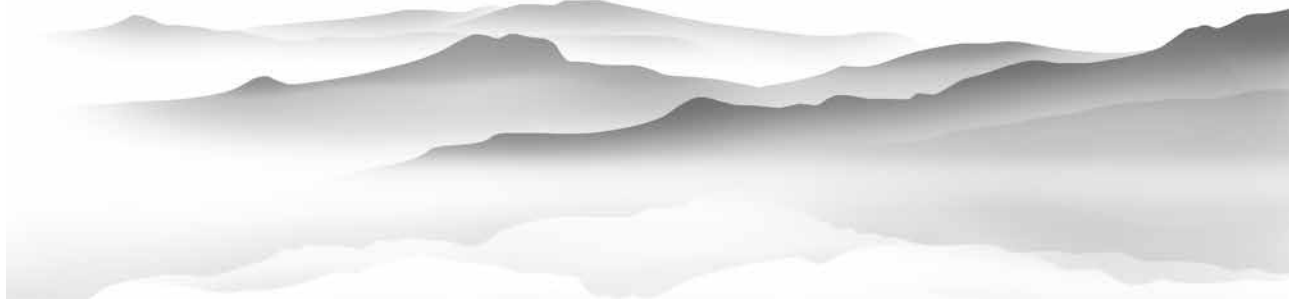

少年兴则国兴，少年强则国强。“青年之字典，无困难之字，青年之口，无障碍之语；惟知跃进，惟知雄飞，惟知本其自由之精神，奇僻之思想，敏锐之直觉，活泼之生命，以创造环境，征服历史。”

作为青年人，我们的未来充满了无限可能，所以不应妄自菲薄。我们要用自己的智慧和力量，创造更加美好的时代，为国家的发展和进步做出更大的贡献。这是我们的责任和使命，也是我们对历史的最好回报。

怒发冲冠，凭栏处潇潇雨歇。我们为国家的奉献，不拘泥于特定的形式，而应依据个人的能力和天赋，各展其长、各尽所能。不满十九岁的陈祥榕在日记中深情写道：“清澈的爱，只为中国。”我们虽不必捐躯赴国难，但我们仍需经风雨、见世面、壮筋骨，才能肩负起时代赋予的重任。爱国并非遥不可及的词汇，它体现在日常的行为中：举报恶意诋毁中国的言论；升旗时挺拔的站姿；自豪地宣称自己是中国人的骄傲。然而，我们能做的远不止于此。

击鼓催征，时不我待；奋楫扬帆，正当其时。我们身处这个最辉煌的时代，这无疑是我们的幸运。作为新时代的青年，我们应展现自己的朝气、锐气，把青春热血播撒在民族复兴的征程上，让这个时代因我们而更加灿烂辉煌。让我们齐心协力，为祖国的繁荣昌盛而奋斗！

## 全国政协人口资源环境委员会副主任王建军一行 来三联调研指导现代康养产教融合工作

11月8日，全国政协人口资源环境委员会副主任、国家卫生健康委原党组成员、中国老龄协会原会长王建军一行来三联调研指导现代康养产教融合工作，王建军在图书馆学术报告厅作主题报告。中国老龄事业发展基金会监事长李军，安徽省民政厅副厅长、安徽省养老协会会长耿学梅，三联创始人、安徽三联学院校长金会庆等参加报告会。报告会由常务副校长江秀丽主持。

会上，副校长宋梦岚介绍了安徽三联集团、安徽三联学院及现代康养产业学院的基本情况。

耿学梅在致辞中代表省民政厅、省养老协会对王建军到来表示欢迎和感谢。她指出，安徽省是较早进入老龄化的省份之一，近年来我省出台了一系列政策，着力推进养老事业与产业协同发展。党的二十大报告也为养老事业和养老产业的未来发展指明了方向。安徽三联学院作为安徽养老协会副会长单位，邀请王建军主任来校作报告，为我们学习

贯彻党的二十大精神，推动我省养老事业和产业的发展提供精准指导。

王建军以《全面贯彻党的二十大精神，推进老龄事业与产业高质量发展》为题作报告，从深刻认识重要性和紧迫性、准确把握总体要求和基本方向、深入推进战略实施三个方面，围绕如何实施积极应对人口老龄化国家战略展开详细阐述。报告指出，我国老龄化情况特殊，积极应对人口老龄化工作直接关系到我国的改革发展稳定大局，意义重大。王建军认为，加强顶层设计，完善老龄政策法规，统筹推进老龄事业改革创新，提升对老年人的保障和服务水平，优化养老、孝老、敬老的社会环境能够缓解我国老龄事业发展不充分、不平衡的矛盾，有利于实施积极应对人口老龄化国家战略，推进老龄事业与产业高质量发展。

江秀丽在主持总结中表示，安徽三联学院积极贯彻落实党的二十大精神，紧跟健康中国发展战略，充分利用安徽三联集团产学研优势，成立现代康养产业学院，着重将现代康养列为核心产业布局，高标准推进老龄事业与产业发展，受到中国老龄事业发展基金会、各级政府及相关部门的关心和支持，相信能够为安徽省康养产业发展提供新经验，注入新活力，助推安徽养老事业高质量发展。

参加报告会的还有中国老龄事业发展基金会、安徽省民政厅、合肥市老龄办、中科（安徽）G60智慧健康创新研究院、安徽三联机器人科技有限公

司领导，合肥工业大学、安徽大学、安徽城市管理职业学院、中国科学院合肥智能所、安徽合肥医药卫生学校、安徽三联学院师生代表。

## 安徽三联学院召开管理体制综合改革启动大会

11月17日下午，安徽三联学院召开管理体制综合改革启动大会，三联创始人、安徽三联学院校长金会庆教授，省教育督导专员、校党委书记王光虎，校董事长余皖生参加大会。大会由安徽三联学院党委副书记、副校长赵翀主持。

会上，常务副校长江秀丽作管理体制综合改革宣贯报告，从改革背景、为什么改、如何改革以及改革的意义四个方面解读学校管理体制综合改革方案。

金会庆校长分别为智慧交通现代产业学院院长唐毅、现代康养产业学院院长宋梦岚、数字创意产业学院院长潘涛、新商科学部部长傅炜、工学部部长薛峰、文学部部长占海文颁发聘书。

在热烈的掌声中，金会庆校长作重要讲话。他首先代表学校向为此次改革筹备工作付出辛勤汗水的“综改领导小组”的同志们表示慰问，向参与和

支持改革筹备工作的各二级单位同志们表示感谢。金校长围绕“变”与“不变”谈到，机构设置、教职工岗位变化了，但三联学院“生为本，师为根，质量促发展”的办学理念、“重德博学、乐教爱生”的精神以及举办者公益办学、服务社会的初心不变。金会庆还提出三点要求，要准确把握改革精神，在“统”字上下功夫；要持续推动改革进程，在“深”字上见实效；要积极做好经验总结，在“新”字上求突破；要正确处理发展与改革的关系，在“稳”字上定方向。

智慧交通现代产业学院院长唐毅、文学部部长占海文分别作为产业学院、学部负责人代表发言。

参加会议的还有全体在肥校领导、全校副科级以上管理干部，各单位教职工代表等。

## 金会庆教授领衔的道路交通安全科研团队获准立项 安徽省高校优秀科研创新团队

近日，从安徽省教育厅获悉，三联创始人、安徽三联学院院长金会庆教授作为团队带头人申报的道路交通安全科研创新团队获准立项（项目批准号2023AH010064），项目类别为优秀科研创新团队项目。

自省教育厅印发科研计划项目申报通知以来，三联学院高度重视安徽省高校优秀科研创新团队申报工作，组织科研骨干申报、研讨，对项目书不断修改打磨，最后成功获批立项，标志着学校道路交通安全领域科学研究能力迈上新台阶，对服务地方经济社会发展、开展有组织的科研、取得高层次科研成果具有重要促进作用。

近年来，学校不断凝练学科团队研究方向和特色，强化优势、构筑平台，支持团队建设。该团队围绕道路交通安全目标持续开展道路交通人因研究，现已形成特色鲜明的研究方向，近年来主持多项国家863、国家支撑计划等课题，在国内外高水平期刊上发表多篇学术论文，并产出一定数量的智库成果。本次安徽省高校优秀科研创新团队获批立项是三联学院近年来强化团队建设管理、培育科研团队的显著成果。学校将持续为科研创新团队建设提供支持保障，加强科研创新和高层次人才队伍建设，不断提升创新团队的示范、引领和辐射作用。

## 三联产教融合科研项目荣获安徽省科学技术发明三等奖

近期，安徽省政府下发了《安徽省人民政府关于2022年度安徽省科学技术奖励的决定》（皖政〔2023〕60号），安徽三联交通应用技术股份有限公司、安徽三联机器人科技有限公司、安徽三联学院等单位共研的“运载车辆生命救助安全保障系统及关键技术”项目，荣获2022年度安徽省科学技术发明三等奖。

“运载车辆生命救助安全保障系统及关键技术”项目主要成果包括：首创“三级救助”全周期风险概率模型和生命救助安全保障系统，整体实现信息感知自动化、救助决策智能化、伤情控制协同化；发明运载车辆碰撞事故自动报警技术，填补我国运载车辆事故自动报警技术及装置的空白；发明

受限空间柔性扩张/易位解救技术，减少传统解救引起的次生伤害；发明床椅一体化机器人和康护训练技术，实现智能化特护与精细化训练，减少残疾。

该项目在国家“863”、科技支撑、自然科学基金等项目支持下，经十余年联合攻关，共获发明专利41件、论文36篇、著作3部，研制装备21台（套），形成了涵盖理论模型、技术方法和工程应用的运载车辆生命救助安全保障系统及关键技术，相关成果被美国《Science》杂志两次专题报道，达到国际领先水平。近三年，项目直接经济效益显著，应用地区实现30min内事故快速救援覆盖率达

95%以上，致死和致残平均下降15%，实现了我国运载车辆生命救助安全保障技术整体跨越，为“交通强国”“健康中国”提供了强有力的技术支撑。

安徽省科学技术奖是由省政府授予的省内科技界最高荣誉，是省内影响力最大、含金量最高的科技奖励。此次获奖是三联产学研一体化创新科研成果，彰显出三联科技创新“硬实力”，进一步夯实了三联的行业领先地位。

## 安徽省社会学学会副会长余皖生出席 学会第六届五次理事会暨2023年学术年会

12月24日上午，安徽省社会学学会第六届五次理事会暨2023年学术年会在中共安徽省委党校召开，全省高校、科研机构及党校系统从事社会学教学、研究的专家学者70余人参加了会议。学会副会长、三联集团及三联学院董事长余皖生出席会议，副校长操晓峰、蔡文芬、傅炜，文学部部长占海文、科研处处长王根杰等参加了本次会议。

本次会议分为三个阶段，第一阶段为六届五次理事会，第二阶段为学习宣传习近平文化思想，第三阶段为学术年会。

安徽省社会学学会会长金乃俊代表理事会作年度工作报告；副会长余皖生宣读了《关于表彰2023年学术年会“中国式现代化与新时代安徽高质量发展”获奖论文的决定》；副会长王东生宣读了关于增补学会副秘书长、常务理事、理事建议名单，理事会一致通过。在集体学习环节，学会常务理事、省社科党委专家宣讲团成员、省社科院当代所所长邢军研究员作了题为《全面把握习近平文化思想的丰富内涵和原创性贡献》的辅导报告。最后，学会副会长、安徽大学范和生教授作了题为《中国式现代化视角下乡村社会建设路径体系构建——以安徽为例》的主旨报告。来自安徽师范大学、安徽建筑大学、安徽财经大学等高校的专家学者围绕主题“中国式现代化与新时代安徽高质量发展”作了精彩的交流发言。三联学院与会人员表示受益匪浅。

副会长丁仁船、方金友、郝欣富及学会顾问钟玉海分别主持会议或做学术点评。

## 安徽三联学院受邀参加“融新聚力 共赢未来” 2023年度中央广电总台国际在线教育大会

12月28日，作为教育界一年一度的盛事，2023年度中央广电总台国际在线教育大会在北京成功举办。大会汇聚教育界权威专家、知名校长和优秀教师，共同探讨前沿的教学理念、教育技术和教学模式，合力推进教育生态的创新发展。安徽三联学院受邀参加大会。

常务副校长江秀丽作为大会演讲嘉宾，她以“融入-融通-融合——安徽三联学院产教融合发展之路”为题，分享了三联自办学以来形成的主要办学特色。她提到，在校院（部）管理体制上，学校坚持“扁平化”管理，下移管理重心、充分释放二级教学单位活力；在育人模式上，学校秉承举办者三联集团产学研一体化育人“基因”，实施产教融合校企合作育人；在教育教学质量保障上，创新引入ISO9001质量认证体系，积极构建“三道防线”质保体系，全周期保障应用型人才培养质量；在校园文化方面，成功塑造“公益三联 大爱江淮”志愿服务品牌。

同时，她介绍道，三联学院举办者三联集团拥有“产学研”三大板块业务，学校本身就是产教融合的结合体，在20余年的办学过程中，学校与集团旗下的公司企业及研究机构同向而行、同频共振、问题共答，形成了“产学研1.0”和“产学研2.0”，期间形成的“科研引领，院所合作”“协同创新，

校企育人”两个阶段办学特色，得到了高职高专水平评估、升本评估、合格评估等教育部专家组及主管部门的高度认可。

她还指出，目前，学校正以产业学院和学部综合管理体制改革为抓手，在产教深度融合的顶层设计、培养模式凝练、专业集群建设、双栖双能队伍打造等方面，积极探索“产学研3.0”，以期形成“产教深融合，打造共同体”的第三阶段产教融合特色。

她在总结中提到学校的产教融合已逐步形成具有三联鲜明特点的“融入-融通-融合”螺旋递进式办学特色，她希望三联的产教融合实践能够为同类院校产教融合建设提供“三联方案”。

最后，江秀丽现场播放了由安徽卫视制作的纪录片《一篇神奇的论文》预告片，该片讲述了安徽三联学院校长金会庆教授根据其撰写的一篇文章，创立了一门学科，发展了一片产业，创办了一所大学，制定了中国道路交通安全行业标准的事迹，希望各位通过视频进一步加深对安徽三联学院及三联集团主攻的科研领域有更全面的认识。江秀丽向在座的嘉宾发出邀请，欢迎各位到安徽三联学院指导工作。

据悉，本次大会由中央重点新闻网站中央广播电视总台国际在线主办、创世蓝海承办，以“融新聚力 共赢未来”为主题，邀请了教育部原副部长张天保，中国教育学会学术委员会顾问、中国人才研究会教育人才专业委员会理事长刘堂江，全国政协委员、国家督学、中国民办教育学会会长刘林，中国教育发展战略学会副会长兼国际胜任力培养专业委员会理事长张宁等多位嘉宾，围绕职业教育、高等教育、基础教育、国际教育等领域热点，解析教育发展与改革大势，探索数字技术带来的教育红利，为教育事业发展注入新活力。

## 三联交通荣获高新区瞪羚企业称号

长风破浪会有时，直挂云帆济沧海。近日，合肥高新区 2023 年度高成长企业榜单发布，三联交通荣获合肥高新区“2023 年度合肥高新区瞪羚企业”荣誉称号。

瞪羚企业是指创业后跨过死亡谷以科技创新或商业模式创新为支撑进入高成长期的中小企业，因具有与瞪羚个头不大、跑得快、跳得高等相似的特征而得名，认定范围主要是产业领域符合国家和省战略新兴产业发展方向，涵盖新兴工业、新一代

信息技术、生物健康、人工智能、金融科技、节能环保、消费升级等领域。

三联交通公司深耕智能驾考领域近二十年，占据了全国三分之一驾考市场，拥有丰富的驾考技术积累，目前已拥有 200 余项发明专利、实用新型、软件著作权等自主知识产权，同时获得了国家专精特新小巨人、国家高新技术企业、安徽省大数据企业等多项荣誉称号。

公司将以此为契机，在道路交通安全领域的新一代信息技术、人工智能、智能联网汽车等研究方向上，加大研发创新投入力度，进一步促进创新条件、技术积累和创新平台建设再上新台阶，从而推动科技成果转化和新品上市的创新绩效实现显著提升。三联交通公司将持续发挥自身优势，以引领行业发展和科研创新为目标，不断推动产业进步和科技创新，为地方经济建设和社会发展做出更大贡献。

## 聚焦源头治理 打造数智驾考

### ——三联交通公司助力西安驾考论坛

12 月 15 日，由公安部道路交通安全研究中心、中国道路交通安全协会主办，陕西省公安厅交通警察总队、陕西省道路交通安全协会、西安市公安局承办，三联交通公司支持的“驾驶人交通安全治理现代化与高质量发展论坛”在陕西省西安市落下帷幕。

论坛当天，来自内蒙古、安徽、湖北、湖南、广东、四川、甘肃、陕西等 16 个省市的公安交管

车驾管部门等两百余人，先后参观了西安市秦汉新城考务中心、西安鹏翔驾校汉长安城交通历史暨安全警示教育基地，实地体验了数智交管为西安市民出行和生活带来的变化。三联交通公司联合西安市交警支队共同研发的驾驶人考试业务分析研判系统在会议中得到了全面、充分地展示。

结合西安市交管业务需求，系统采用 AI 视频分析技术和大数据分析算法，实现对考试业务数据

和考试视频的智能分析研判，实现对业务大厅可疑办事人员预警、待考室人员聚集、科目一巡考人员滞留、科目二非考试人员违规入场、科目三安全员语音提示和手势提示等多场景疑似作弊行为异常数据研判，主动推送报警信息，变“被动”检查为“主动”防控。从而缩小了监管范围，提高了监管精度，节约了警力资源，提升了管理科技化水平，实现了监管工作的常态化、精细化和智能化。

同时，三联交通公司还展示了针对科目三实际道路考试安全员管理难题的解决方案——智能紧急制动安全辅助系统。系统由前端感知设备和后端处理中心组成，前端设备感知捕捉车辆前方实时路况信息和图像，并实时传递后端中心，结合后端人工智能和深度学习算法，基于预设的多种安全辅助制动预案，实现车辆在危险情况下紧急制动，并生成报警数据发送到系统管理后台，助力实际道路考试安全、公平与公正。系统引起了参会领导的强烈关

注，获得与会领导的高度赞扬。

在下午举行的论坛上，安徽三联集团 CTO、安徽三联交通应用技术股份有限公司副总经理金来作主题演讲《聚焦源头治理，打造数智驾考》，从环境变化、管理现状、政策趋势的思考出发，全面介绍了三联交通公司聚焦驾驶人交通安全治理源头，基于现代化科技手段，打造数智驾考的一系列实践与探索。重点介绍在车驾管业务数据分析与研判、科目三考试智能紧急制动安全辅助实现去安全员、国产化无盘科目一理论考试等领域的解决方案。

数智改变生活，在人工智能蓬勃发展的今天，我们用科技改变着我们的生活方式。三联交通公司也正是秉承着这样的理念，与时俱进，不断创新，在主营业务领域持续深耕细作，紧密围绕客户需求开展深入合作，共同为道路交通安全发展注入强劲的数智能能。

## 三联交通公司参加安徽省第八届驾校校长论坛

12月21日至22日，安徽省驾协二届四次会员大会暨第八届驾校校长论坛在合肥召开。本次会议是安徽省交通、公安部门共同推进驾培监管服务平台与互联网交通安全综合服务管理平台考试系统

联网对接工作（简称学时对接）之后的行业盛会。

会议受到省交通厅、16个地市交通局以及学时对接试点地市主管部门的高度重视。期间，全省交通主管部门还召开了驾驶人安全意识大提升三年

行动计划座谈会。安徽省交通运输厅施溢源处长、省道路运输管理服务中心彭道月主任等省市领导参与会议，并传达省交通运输厅党组书记、厅长聂爱国有关工作指示精神。

三联交通公司作为省驾协副会长单位，安徽首批计时培训试点工作合肥、安庆等地市中标入围供应商，受邀全程支持本次会议。王江波董事长带队参会，副总经理胡森、战略发展部主任顾涛等领导一同参会，与到会行业主管部门领导、行业专家、知名驾校负责人等深入交流。会上，顾涛主任作《基于交警驾考 122 管理平台 探讨驾驶人培训高质量发展新路径》的主题演讲，通过对驾驶人培训考试现状的深入剖析，围绕三联“培在当下、与考俱进”的驾培产品理念，分享交流了三联驾驶人培训新技

术应用探索与实践，同时表示，要发展驾驶人培训新路径，可以利用数字化技术的管理手段，有利于对驾驶人学习行为进行深入分析，为驾驶人定制更加个性化的教学服务。

本次大会，公司自主研发的多款计时终端等驾培产品精彩亮相，分享的驾培发展思路以及应对策略，得到了与会领导和专家的高度认同与赞扬。

面对澎湃发展的技术迭代和行业发展新的需求，三联交通公司始终坚持求新求变，立足驾培驾考，紧密围绕政策动向，深入场景，持续创新，以极具竞争力的产品和解决方案，携手助力驾培行业数智化转型和发展。

## 安徽三联机器人科技有限公司被认定为 首批安徽省企业研发中心

根据《安徽省企业研发中心建设认定工作指引（试行）》（皖科基地〔2023〕8号）和《关于开展2023年安徽省企业研发中心建设认定工作的通知》（皖科基地秘〔2023〕239号）要求，经通知发布、组织申报、各市审核推荐、形式审查、现场核查、会议审议等程序，安徽三联机器人科技有限公司等354家企业研发中心被认定为2023年（首批）

安徽省企业研发中心。

安徽三联机器人科技有限公司将以此入选为契机，在技术创新平台的政策支持和指导下，围绕智慧养老、智能康复两大领域，不断寻求技术突破和产品创新，推动智慧康养产品落地，助力高水平创新型省份建设。

## 上海视觉艺术学院一行来安徽三联学院考察交流

11月15日，上海视觉艺术学院董事长朱自强、鑫岛（上海）文化传播有限公司董事长邹砾、品冠智能环境总经理张亮、荣事达科技住宅公司办公室主任王昊东、荣事达集团品牌部刘震等一行来安徽三联学院考察交流。安徽三联集团董事长余皖生、执行总裁金磬参会。校党委副书记、副校长赵翀，副校长傅炜，数字创意现代产业学院相关负责人参加了交流座谈。

座谈会上，余皖生首先致辞，向来访考察人员

表示热烈欢迎。傅炜向来访考察人员介绍了安徽三联集团有关情况，并从学校概况、主要办学特色、主要荣誉等方面重点介绍了安徽三联学院。

朱自强对学校的热情接待表示感谢，从发展历程、领导情况、办学规模、专业建设等方面介绍了上海视觉艺术学院相关情况。

会上，与会双方就办学理念、专业学科建设、学生培养等方面内容进行了交流探讨。

座谈会后，双方共同参观了安徽省非遗传承基地——三联学院剪纸艺术研究中心。中心负责人热情地介绍了陈列的各类剪纸作品和其他文创产品，获得了在场领导和老师的连连称赞。

此次考察深化了三联学院与上海视觉艺术学院的交流和互鉴，为进一步促进校际合作打下了良好基础。

## 共青团合肥市委副书记一行来校交流园博会志愿服务工作并赠送感谢信

12月27日上午，团合肥市委副书记洪欣、团合肥市委办公室主任李锐、中国铁路上海局集团有限公司合肥站团委书记单珊等一行4人来校，就园博会志愿服务工作赠送感谢信和园博会纪念徽章。校党委副书记、副校长赵翀，党办、综合办、校团委等部门负责人及10名园博会学生志愿者代表参加会议，会议由校团委副书记吴琦主持。

会上，校团委教师朱悦就学校园博会志愿服务

整体招募和管理等相关工作进行总结汇报，文学部志愿者高玉竹作为学生代表发言。

单册就园博会期间，志愿者在合肥火车站、合肥南站的志愿服务工作表示感谢和肯定，对三联学院的管理模式和 student 素质给予高度认可，希望进一步加强与学校的合作，共同搭建社会实践、志愿服务平台。

洪欣表示安徽三联学院作为首批承接高校，出色、圆满地完成了本次工作，为全市高校打了一个较好的样板，他对三联 530 名优秀青年志愿者精神风貌和出色表现给予了高度赞扬，并向校领导及老师给予的支持和帮助表示衷心感谢，希望学校继续支持团市委工作，积极推动高校与园区共建志愿服务基地，打造永久接力的志愿服务品牌。

赵翀对团市委长期以来的支持表示谢意，他表示，这次志愿服务活动，是学校积极响应团市委号

## 共青团合肥市委员会

### 感谢信

安徽三联学院：  
由住房和城乡建设部、安徽省人民政府主办，合肥市人民政府、安徽省住房和城乡建设厅承办的第十四届中国（合肥）国际园林博览会，于 9 月 26 日在合肥瑶海中央公园盛大开幕，园博会以“生态优先，百姓园博”为主题，展期 3 个月。合肥始终坚持以“永远不落幕”的园博会，建设“永远都精彩”的园博城，铭记“永远忘不了”的园博情，不忘初心使命，接续奋斗激情，努力打造成为习近平生态文明思想和关于城市工作重要论述的生动实践地和精彩呈现地。共青团合肥市委承担本届园博会期间志愿服务保障工作。大会期间，贵校高度重视，鼎力相助，主动对接、积极配合，校团委精心选拔推荐 530 名优秀青年志愿者，参与园博园咨询引导、场地巡逻、应急保障等志愿服务，累计上岗 3990 人次。志愿者们热情周到、专业规范的服务，给与会嘉宾及参观游客留下了深刻印象，为园博会成功举办提供了有力支持。在此，对贵校的大力支持，对志愿者们的无私奉献表示衷心的感谢！  
祝贵校各项工作不断取得新突破！祝全体师生工作顺利，学习进步，身体健康，阖家幸福！

召，发挥高校团组织服务地方经济社会发展的一次重要实践。学校将以此为契机，进一步加强与团市委的合作与交流，共同探索高校与地方团组织合作的新模式、新机制。

座谈会上，团市委向三联学院赠送感谢信、园博会纪念徽章，并颁发优秀志愿者证书；中铁上海局合肥站团委向三联志愿者代表颁发志愿服务纪念证书。这既是对学校志愿服务工作的肯定，也是对广大青年志愿者的激励，

同学们纷纷表示，将继续传承“奉献、友爱、互助、进步”志愿服务精神，用自己的实际行动践行新时代的雷锋精神，为推动合肥城市发展和社会进步贡献青春力量。

成功从来不是一蹴而就的。正如我们的老话所说，一分耕耘，一分收获，这是经过无数实践检验的真理。每一个卓越的业绩，都代表着背后的辛勤努力和智慧积累。对于王本新同志来说，身为拓展部内蒙古办事处主任，他的每一项成就皆是坚定信念、忠诚履职的具体展现。面对2022年罕见的疫情影响及复杂多变市场竞争压力，他带领部门员工团结拼搏，积极开拓，实现销售逆势增长，在平凡之年书写出绚丽篇章。

## 锐意进取勇突破 铿锵奋进为人先

——记安徽三联集团2022年度先进个人、  
安徽三联交通应用技术股份有限公司拓展部内蒙古办事处主任王本新

自加入三联大家庭以来，他凭借丰富的工程安装经验，以抓铁有痕、踏石留印的坚韧和执着拓展内蒙古市场，展现出卓越的业务能力和积极主动的工作态度。在2022年充满挑战与机遇的年份，面对内蒙古地域辽阔、市场项目繁杂等实际困难，他带领销售团队不畏艰难，积极主动与客户进行线上沟通交流，并制定应对方案。一旦出行限制政策稍有放松，他们便立刻赶赴项目现场，克服住宿等困难，与客户进行技术交流与洽谈，有效提升了客户对公司的认可度。此外，他还积极开展对重点客户的拜访工作，精心维护客户关系，进一步提高了客户的忠诚度。在公司领导的正确决策和王本新同志的出色带领下，内蒙古办事处在2022年取得了显著成绩，新签合同额达到2200万元，辖区升级改造成功率高达92%，实现了宁夏地区科目三项目零的突破。他以实际行动诠释了“三联拓展人”的使命与担当。

王本新同志深知人才建设对提升执行力的重要性，因此在管理工作中始终以人为本，注重关心员工、尊重员工、培养员工。他重视团队精神和凝聚力，通过激励效应，成功打造了一支高效的销售先锋团队。在工作中，王本新同志遵循“整体管理，过程管理”的原则，明确了整体目标后，将其分解细化到团队成员，明确职责，力求管理系统化。他定期召开部门例会，组织内部人员学习公司各项规章制度，向部门成员灌输业务理念和经营思路及公司的各项方针政策。同时，他紧密结合内控管理工作，查找管理工作中的漏洞，确保各项工作规范、有序、高效地完成。

每一位榜样人物的光辉背后，隐藏着无数个日夜的沉淀与无畏挑战的勇气。运气背后的秘密，乃是无数次的坚韧、奋斗与突破。让我们以最崇高的敬意，为这些榜样人物喝彩加冕，同时不忘初心，砥砺前行，共同创造更加辉煌的未来！

## 风来追风 雨来听雨

读到山门起司的一句话：“下次你撑伞低头看水洼，就会想起我说雨是神的烟花”，这让原先不太招人喜欢的雨天，也变得诗意了不少。

我喜欢雨的自由。在下雨天，万物仿若静止，但雨却肆意地飘洒着，自由自在，无忧无虑。雨是喧哗，雨是呐喊，若风和日丽，就静赏闲云，若雨落敲窗，就且听风声。

我偏爱雨落的声音。清脆的滴答声，降落在人间，舒展在屋檐上，却又欢腾在芭蕉里。雨打芭蕉，也成了我心中轻盈的向往。凭栏远眺，轩窗卧赏，听听清脆铃铛的雨意，坠入绿叶芭蕉的天籁之音，感受自然的宁静。

我中意淋雨的感觉。好多年前，我就特别喜欢在下雨时开窗迎雨。雨落在皮肤上，冰冰凉凉的触感，我张开双手，尽情地迎接这位老朋友。在雨中，

负面的情绪仿佛都可以释放干净，即使是哭泣，也不会有人知道那是雨还是泪。在雨中，我们可以丢掉一切烦恼，泪流满面后仍可以继续微笑，雨会停，天会晴，没有什么会永远糟糕透顶。

我站在雨里狂欢，接受雨的爱意。风来追风，雨来听雨，不管是和风细雨，还是倾盆大雨，都会让心踏实下来。这或许是许自己一份抚慰，又或许是给岁月一段安静。雨有急有缓，路有平有坎。若你身陷雨中，愿有人为你撑伞避雨；如果没有，也愿你有风来追风、雨来听雨的淡然心态。因为在我看来，每一次听雨淅沥，都是和自己的一次和解。我祝自己打开窗，风来追风，雨来听雨，在喧嚣的世间也有属于自己的宁静与淡然。

## Vice Chairman Wang Jianjun and His Delegation from the Population Resources and Environment Committee of the National Committee of the Chinese People's Political Consultative Conference (CPPCC) Visited ASU to Conduct Research and Guidance on the Integration of Modern Health Care and Education Production

On November 8th, Wang Jianjun, former member of the Party Group of the National Health Commission and former President of the China National Committee on Aging, delivered a keynote speech at the Academic Lecture Hall of the library. The meeting was attended by Li Jun, Chairman of the China National Committee on Aging Development Foundation, Geng Xuemei, Deputy Director of the Anhui Provincial Department of Civil Affairs and President of the Anhui Provincial Elderly Care Association, and Jin Huiqing, Co-founder of Sanlian and President of Anhui Sanlian University. The meeting was chaired by Executive Vice President Jiang Xiuli.

At the meeting, Vice President Song Menglan introduced the basic situation of Anhui Sanlian Group, Anhui Sanlian University, and the Institute of Modern Health and Wellness.

In her speech, Geng Xuemei, on behalf of the

Provincial Department of Civil Affairs and the Provincial Elderly Care Association, welcomed and thanked Wang Jianjun for his visit. She pointed out that Anhui Province is one of the early provinces to enter an aging society. In recent years, the province has introduced a series of policies to promote the coordinated development of elderly care and the industry. The report from the 20th National Congress of the Communist Party of China also pointed out the future direction for the development of elderly care and the elderly care industry. As a vice president unit of the Anhui Elderly Care Association, Anhui Sanlian University invited Director Wang Jianjun to give a report, providing precise guidance for us to study and implement the spirit of the 20th National Congress of the Communist Party of China and promote the development of the elderly care industry in our province.

Under the theme “Fully Implementing the Spirit of the 20th National Congress of the Communist Party of China and Promoting the High-Quality Development of Aging and Industry,” Wang Jianjun delivered a report, elaborating on three aspects: a profound understanding of the importance and urgency, accurate grasp of the general requirements and basic direction, and in-depth promotion of strategic implementation. He detailed how to implement the national strategy for actively responding to an aging population. The report

pointed out that China's aging population presents a unique situation, and actively addressing the aging population's work directly affects the overall situation of the country's reform, development, and stability, with significant implications. Wang Jianjun believes that strengthening top-level design, improving elderly care policies and regulations, cohesively promoting reform and innovation in elderly care, improving the guarantee and service level for the elderly, and optimizing the social environment for elderly care, filial piety, and respect for the elderly, can ease the insufficient and unbalanced development of China's elderly care industry. This approach is beneficial for implementing the national strategy for actively responding to an aging population and promoting the high-quality development of the elderly care and industry.

In her concluding remarks, Jiang Xiuli stated that Anhui Sanlian University actively implements the spirit of the 20th National Congress of the Communist Party of China, closely follows the development strategy of Healthy China, fully utilizes the advantages of industry, education, and research of Anhui Sanlian Group, and has established the Institute of Modern Health and Wellness, focusing on positioning modern health and wellness as the core industry layout, and advancing

the development of elderly care and industry with high standards. This has received attention and support from the China National Committee on Aging Development Foundation, governments at all levels, and relevant departments. It is believed that it can provide new experiences and inject new vitality for the development of the elderly care industry in Anhui Province and help promote the high-quality development of the elderly care industry in Anhui.

The report meeting was also attended by leaders from the China National Committee on Aging Development Foundation, Anhui Provincial Department of Civil Affairs, Hefei Elderly Care Office, Zhongke (Anhui) G60 Smart Health Innovation Research Institute, Anhui Sanlian Robotics Technology Co., Ltd., Hefei University of Technology, Anhui University, Anhui City Management Vocational College, Hefei Institute of Intelligent Machines of the Chinese Academy of Sciences, Anhui Hefei Medical and Health School, and representatives of faculty and students from Anhui Sanlian University.

## Anhui Sanlian University Held a Comprehensive Reform Launch Meeting for its Management System

On the afternoon of November 17th, Anhui Sanlian University held a launch meeting for the comprehensive reform of its management system. Professor Jin Huiqing, the founder of Anhui Sanlian University and President of Anhui Sanlian University, Commissioner for

Education Supervision of Anhui Province and Secretary of the University Party Committee, Wang Guanghu, and Chairman of the University Board of Directors, Yu Wansheng, attended the meeting. The meeting was chaired by Zhao Chong, Deputy Secretary of the

University Party Committee and Vice President of Anhui Sanlian University.

During the meeting, Executive Vice President Jiang Xiuli delivered a report on the comprehensive reform of the management system, covering the background of the reform, the reasons for the reform, the methods of reform, and the significance of the reform for the university.

President Jin Huiqing presented letters of appointment to the deans and department heads of the Industrial College and delivered a speech. He first expressed his condolences to the comrades of the “Comprehensive Reform Leadership Group” who had worked hard for the preparation of this reform, and thanked the comrades from various secondary units who had participated in and supported the preparation of the reform. President Jin discussed the changes and constants, emphasizing that while there were changes in organizational structure and faculty positions, the school’s educational philosophy of “putting students first, valuing teachers as the foundation, and promoting development through quality” remains unchanged, as well as the unchanging spirit of “emphasizing morality

and erudition, enjoying teaching and loving students,” and the original intention of running the school for the public welfare and serving the society. President Jin also put forward three requirements: to accurately grasp the spirit of the reform and focus on unity, to continuously promote the progress of the reform and achieve practical results, and to actively summarize experiences and seek breakthroughs in novelty. It is also important to correctly handle the relationship between development and reform and stabilize the direction.

The Deans of the Modern Industrial Institute of Intelligent Transportation, Tang Yi, and the Head of the Literature Department, Zhan Haiwen, respectively spoke on behalf of the Industrial College and the department.

The meeting was also attended by all the leaders of the Anhui campus, all deputy and above-level management cadres, and representatives of faculty and staff from various units.

## Professor Jin Huiqing-led Road Traffic Safety Research Team Approved as Outstanding Research and Innovation Team in Anhui Province's Universities

Recently, it was reported by the Anhui Provincial Department of Education that the Road Traffic Safety Research and Innovation Team led by Professor Jin Huiqing, co-founder and President of Anhui Sanlian University, has been approved for establishment (Project Approval No. 2023AH010064) in the category of Outstanding Research and Innovation Team Project.

Since the issuance of the research project application notice by the Provincial Department of Education in April 2023, Anhui Sanlian University has attached great importance to the application for outstanding research and innovation teams in Anhui Province's universities. The university organized research backbones to apply and discuss, continuously revised and polished the project proposal, and finally succeeded in the approval of the project, marking a new milestone in the scientific research capabilities in the field of road traffic safety at the university. This has an important promoting effect on serving local economic and social development, conducting organized scientific research, and achieving high-level research results.

In recent years, the university has continuously refined the research direction and characteristics

of disciplinary team, strengthened advantages, and built platforms to support team building. The team has been continuously conducting research on road traffic human factors around the goal of road traffic safety, and has formed a distinct research direction. In recent years, the team has undertaken multiple projects such as the National 863 Program and the National Support Program, published multiple academic papers in high-level domestic and international journals, and produced a certain number of think tank achievements. The approval of the establishment of the Outstanding Research and Innovation Team in Anhui Province's universities is a significant achievement of Sanlian University in strengthening team building and cultivating research teams in recent years. The university will continue to provide support and security for the construction of research and innovation teams, strengthen research and innovation, and the construction of high-level talent teams, continuously improve the demonstration, leading, and radiation effects of innovative teams.

## Integrated Research Achievements in the Integration of Industry, Education, and Research Win Third Prize in Anhui Province's Science and Technology Invention Awards

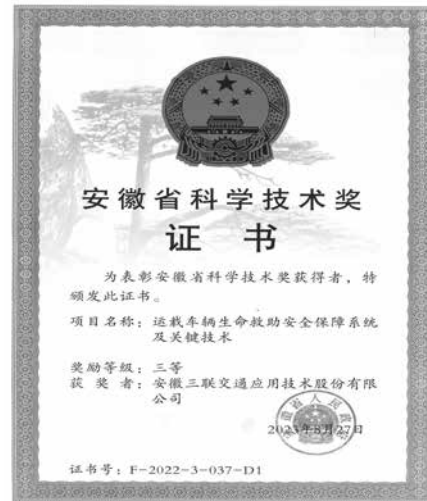

Recently, the Anhui Provincial Government issued the "Decision of the People's Government of

Anhui Province on the 2022 Anhui Provincial Science and Technology Awards" (Wan Zheng (2023) No.

60). The project “Life Rescue and Safety Assurance System for Carrying Vehicles and Key Technologies”, jointly researched by Anhui Sanlian Traffic Application Technology Co., Ltd., Anhui Sanlian Robotics Technology Co., Ltd., and Anhui Sanlian University, has won the 2022 Anhui Provincial Science and Technology Invention Third Prize.

The main achievements of the “Life Rescue Safety Assurance System for Carrying Vehicles and Key Technologies” project include: the pioneering “three-tier rescue” full-cycle risk probability model and life rescue safety assurance system, achieving overall information perception automation, intelligent rescue decision-making, and coordinated injury control; the invention of automatic collision accident alarm technology for carrying vehicles, filling the gap in automatic collision alarm technology and devices for carrying vehicles in China; the invention of restricted space flexible expansion/relocation rescue technology, reducing secondary injuries caused by traditional rescue; the invention of integrated bed-chair robots and rehabilitation training technology, achieving intelligent special care and fine training, and reducing disabilities.

With the support of national projects such as “863,” technology support, and the National Natural Science Foundation, this project has been jointly developed for more than ten years, resulting in 41 invention patents, 36 papers, 3 books, and the development of 21 pieces of equipment. It has formed a system covering theoretical models, technical methods, and engineering applications for the life rescue safety assurance system and key technologies for carrying vehicles. The related achievements have been featured in two special reports by the American journal “Science,” reaching the international leading level. In the past three years,

the project has achieved significant direct economic benefits, with the rapid rescue coverage rate of accidents within 30 minutes in the application area reaching over 95%, and the average decrease in deaths and disabilities by 15%, achieving an overall leap in life rescue safety assurance technology for carrying vehicles in China. This has provided strong technical support for the construction of a “strong transportation country” and a “healthy China.”

The Anhui Science and Technology Award is the highest honor in the local science and technology community awarded by the provincial government, and it is the most influential and prestigious science and technology award in the province. This award-winning achievement is the result of integrated innovative research in production, education, and research at Anhui Sanlian University, demonstrating the “hard power” of Anhui Sanlian University’s technological innovation and further consolidating Anhui Sanlian University’s leading position in the industry.

## Vice President Yu Wansheng of the Anhui Sociology Society Attends the Sixth Fifth Council Meeting and 2023 Academic Annual Conference

On the morning of December 24th, the Sixth Fifth Council Meeting and the 2023 Academic Annual Conference of the Anhui Sociology Society were held at the Party School of the Anhui Provincial Committee of the Communist Party of China. More than 70 experts and scholars from universities, research institutions, and the party school system in the province who are engaged in sociology teaching and research attended the meeting. Yu Wansheng, Vice President of the society and Chairman of Sanlian Group and Anhui Sanlian University, attended the meeting, along with Vice Presidents Cao Xiaofeng, Cai Wenfen, and Fu Wei, Minister of the Department of Literature Zhan Haiwen, and Director of the Research Office Wang Genjie.

The meeting was divided into three stages: the first stage was the Sixth Fifth Council Meeting, the second stage was a session on learning and promoting Xin Jinping Thoughts on culture, and the third stage was the academic annual conference.

The President of the Anhui Sociology Society, Jin Naijun, made the annual work report on behalf

of the council. Vice President Yu Wansheng read out the “Decision on Commending the Award-Winning Papers of the 2023 Academic Annual Conference on ‘Chinese-style Modernization and High-quality Development of Anhui in the New Era’.” Vice President Wang Dongsheng read out the list of additional Vice Secretaries, Executive Council members, and Council Suggestions, which was unanimously approved by the council. During the collective learning session, Xing Jun, a member of the expert preaching team of the provincial social science party committee and the director of the Contemporary Institute of the Provincial Academy of Social Sciences, delivered a guidance report titled “Comprehensively Grasping the Enriched Connotation and Original Contribution of Xin Jinping Thoughts on Culture.” Finally, for the academic annual conference, Vice President Fan Hesheng of Anhui University delivered a keynote speech on “The Construction of the Rural Social Development Path System from the Perspective of Chinese-style Modernization: A Case Study of Anhui.” Experts and scholars from Anhui Normal University, Anhui University of Architecture, and Anhui University of Finance and Economics delivered excellent speeches on the theme of “Chinese-style Modernization and High-quality Development of Anhui in the New Era.” Members from Anhui Sanlian University expressed that they benefited greatly from the conference.

Vice Presidents Ding Renchuan, Fang Jinyou, and Hao Xinfu, as well as the society advisor Zhong Yuhai,

respectively chaired the meeting or provided academic comments.

## Leader of Anhui Sanlian University is Invited to Participate in the “Converging New Forces, Winning the Future Together” 2023 International Online Education Conference hosted by the Central Radio and Television General Station

On December 28th, the 2023 International Online Education Conference, an annual event in the education sector, was successfully held in Beijing by the China Central Television (CCTV). The conference brought together authoritative experts, renowned school principals, and outstanding teachers in the field of education to jointly explore cutting-edge teaching concepts, educational technology, and teaching models, and to promote the innovative development of the education ecosystem. Anhui Sanlian University was invited to attend the conference.

Jiang Xiuli, Executive Vice President, was a guest speaker at the conference. She delivered a speech titled “Integration, Connectivity, and Fusion – The Path of Development of Production–Education Integration at Anhui Sanlian University,” sharing

the main characteristics of education established by the university since its inception. She mentioned that the university adheres to a “flattened” management system in its academic departments, shifting the focus of management downwards and fully unleashing the vitality of the secondary teaching units. In terms of nurturing talents, the university upholds the “gene” of integrated education, combining production, education, and research, and implementing cooperative education with enterprises. In terms of ensuring educational quality, the university has innovatively introduced the ISO9001 quality certification system and actively constructed a “three-line defense” quality assurance system to ensure the quality of applied talent cultivation throughout the entire cycle. In terms of campus culture, the university has successfully shaped the “Public Welfare Sanlian, Great Love of the Jianghuai” volunteer service activity brand.

Additionally, she introduced that Anhui Sanlian University, which is organized by the Sanlian Group, encompasses three major business sectors of production, education, and research. The university itself is a combination of production–education integration. Over the 20 years of its operation, the university has moved in the same direction as the companies and research

institutions under the group, forming the “1.0” and “2.0” versions of production–education–research, which have garnered high recognition from the Ministry of Education’s expert groups and supervisory departments in terms of vocational college level assessment, undergraduate program assessment, and qualification assessment.

She also pointed out that the university is currently using the reform of the comprehensive management system of the industrial college and departments as a starting point to actively explore “3.0” in–depth integration of production and education. The goal is to form the third stage characteristics of production–education integration, aiming to create a “deeply integrated production–education community.”

In summary, Jiang Xiuli stated that the integrated production–education model at the university has gradually formed a distinctive “integration, connectivity, and fusion” spiral progressive characteristic, and she hopes that the university’s practice in integrated production and education can provide a “Sanlian plan” for similar institutions.

Finally, Jiang Xiuli played a preview of the documentary “A Miraculous Thesis” produced by Anhui TV, which tells the story of how Professor Jin Huiqing, the President of Anhui Sanlian University, established a discipline, developed an industry, founded a university, and formulated standards for the Chinese road traffic safety industry based on a paper he authored. She invited guests to deepen their understanding of

Anhui Sanlian University and the Sanlian Group’s research areas through the video. Jiang Xiuli extended an invitation to the guests present, welcoming them to provide guidance at Anhui Sanlian University.

It is worth noting that the conference was hosted by the China Central Television International Online, a key news website of the central government, and organized by Creation Blue Ocean. The theme of the conference was “Integration, Connectivity, and Fusion – Shaping the Future Together.” It invited many distinguished guests, including Zhang Tianbao, former Deputy Minister of the Ministry of Education, Liu Tangjiang, Advisor to the Academic Committee of the Chinese Education Society and Chairman of the Education Talent Professional Committee of the China Talent Research Society, Liu Lin, National Committee member of the Chinese People’s Political Consultative Conference, National Inspector, and President of the China Private Education Association, and Zhang Ning, Vice President of the China Education Development Strategy Association and Chairman of the International Competency Development Professional Committee. The conference focused on hot topics in vocational education, higher education, basic education, and international education, analyzing the overall trend of educational development and reform, exploring the educational dividends brought by digital technology, and injecting new vitality into the development of the education cause.

## Anhui Sanlian Applied Traffic Technology Co., Ltd. Awarded the Title of “High-Growth Enterprise of Hefei High-tech Zone”

“Sometimes we must break through the winds and waves, and set sail directly across the vast sea.” The Hefei High-tech Zone recently released its 2023 list of high-growth enterprises, and Anhui Sanlian Applied Traffic Technology Co., Ltd. was honored with the title of “Hefei High-tech Zone’s 2023 High-Growth Enterprise.”

The term “high-growth enterprise” refers to small and medium-sized enterprises that have crossed the ‘valley of death’ after starting their business and have entered a high-growth period supported by technological innovation or business model innovation. They are named after the characteristics similar to the agile and fast-running gazelle due to their small size and quick development. The identification scope mainly includes industrial sectors that align with the national and provincial strategic emerging industry development directions, covering emerging industries, new-generation information technology, bio-health, artificial intelligence, financial technology, energy conservation, environmental protection, and consumption upgrading.

Anhui Sanlian Applied Traffic Technology Co., Ltd. has been deeply involved in the field of intelligent driver examination for nearly twenty years, occupying one-third of the national driver examination market. The company has accumulated abundant proprietary technology in driver examination and currently holds over 200 patents for inventions, utility models, software copyrights, and other intellectual property rights. Additionally, it has been honored with titles such as National Specialized, Special New Small and Medium Enterprise, National High-Tech Enterprise, and Anhui Province Big Data Enterprise.

Taking this opportunity, the company will increase its research and development investment in new-generation information technology, artificial intelligence, and intelligent networked vehicles in the field of road traffic safety. This will further promote the innovation of research conditions, technology accumulation, and the construction of innovation platforms, leading to a significant improvement in innovative performance, thus driving the transformation of scientific and technological achievements and the significant enhancement of new product launches. ASATT will continue to leverage its advantages, aiming to lead industry development and scientific research innovation, continuously promote industrial progress and technological innovation, and make greater contributions to local economic construction and social development.

## Focusing on Source Governance to Build Smart Driver Examination

— Anhui Sanlian Applied Traffic Technology Co., Ltd. Assists Xi' an Driver Examination Forum

On December 15th, the “Modernization and High-Quality Development Forum for Traffic Safety Governance for Drivers” supported by Anhui Sanlian Applied Traffic Technology Co., Ltd. concluded in Xi’ an, Shanxi Province. The forum was organized by the Road Traffic Safety Research Center of the Ministry of Public Security, the China Road Traffic Safety Association, and undertaken by the Traffic Police Corps of the Public Security Department of Shaanxi Province, the Shaanxi Road Traffic Safety Association, and the Public Security Bureau of Xi’ an.

On the day of the forum, more than 200 representatives from the public security traffic management departments of 16 provinces and cities including Inner Mongolia, Anhui, Hubei, Hunan, Guangdong, Sichuan, Gansu, and Shaanxi, visited the examination centers in Qinhan New City and the Traffic History and Safety Education Base of Xi’ an Pengxiang Driving School. They experienced firsthand the changes brought to the lives and travel of Xi’ an citizens by intelligent traffic management. The driver examination

business analysis and judgment system jointly developed by Anhui Sanlian Applied Traffic Technology Co., Ltd. and the Xi’ an Traffic Police Detachment were comprehensively and fully showcased at the conference.

In response to the operational requirements of traffic management in Xi’ an, the system employs AI video analysis technology and big data analysis algorithms to achieve intelligent analysis and judgment of examination business data and examination videos. It is capable of identifying suspicious individuals in the business hall, gathering of candidates in waiting rooms, loitering of inspectors during during the first part of the examination, unauthorized entry of non-examinees during specific tests, voice prompts for safety personnel during the third part of the examination, as well as abnormal data analysis for suspected cheating behaviors such as hand gestures. The system actively sends out alerts for abnormal data related to suspected cheating behaviors in multiple scenarios, transforming the inspection from a “passive” approach to “proactive” prevention and control. This has resulted in a reduction

of supervision scope, improved supervision accuracy, saved law enforcement resources, enhanced the level of technological management, and achieved normalization, refinement, and intelligence in supervision work.

In addition, Anhui Sanlian Applied Traffic Technology Co., Ltd. also presented a solution to the challenging management of safety personnel during the practical road examination for subject three – an intelligent emergency braking safety assistance system. The system consists of front–end perception devices and a back–end processing center, capturing real–time road conditions and images in front of vehicles and transmitting them to the back end center. It utilizes back end artificial intelligence and deep learning algorithms to implement emergency braking based on preset safety assistance plans in dangerous situations, generating alarm data sent to the system management background, thus ensuring the safety, fairness, and justice of actual road examinations. The system garnered strong attention from the forum leaders and received high praise from the attending officials.

During the afternoon forum, Jin Lai, CTO of Anhui Sanlian Group and Vice General Manager of Anhui Sanlian Applied Traffic Technology Co., Ltd., delivered a keynote speech titled “Focusing on Source

Governance to Build Smart Driver Examination.” He comprehensively introduced Anhui Sanlian Applied Traffic Technology Co., Ltd.’ s practices and explorations in focusing on the source governance of driver traffic safety and building smart driver examinations based on modern technological methods, considering environmental changes, current management status, and policy trends. The speech emphasized solutions in the areas of vehicle and driver management business data analysis, judgment for subject three examinations, intelligent emergency braking safety assistance to replace safety personnel, and domestic non–steering wheel theoretical examination for subject one.

In the era of smart technology and the flourishing development of artificial intelligence, Anhui Sanlian Applied Traffic Technology Co., Ltd. adheres to the philosophy of using technology to change lifestyles, continuously innovating and deeply cultivating its core business areas. With a focus on meeting customer needs, the company is committed to injecting strong smart energy into the development of road traffic safety.

## Leaders from Anhui Sanlian Applied Traffic Technology Co., Ltd. Participates in the 8th Anhui Province Driving School Principals Forum

On December 21st and 22nd, the second fourth member congress of the Anhui Provincial Driving Association and the 8th Driving School Principals Forum were held in Hefei. The meeting served as an industry summit following the coordinated efforts

of the Anhui provincial transportation and public security departments to connect the driving training supervision service platform with the internet traffic safety comprehensive service management platform examination system, known as the “learning hours

connection.”

The conference received high attention from the provincial transportation department, 16 local transportation bureaus, and the responsible departments of the trial cities for the learning hours connection. During the event, the provincial transportation authorities also held a symposium on the three-year action plan for significantly improving the safety awareness of drivers. Shi Yiyuan, Director of the Anhui Provincial Department of Transportation, and Peng Daoyue, Director of the Provincial Road Transport Management Service Center, along with leaders from various cities, attended the meeting and conveyed the work instructions from Nie Aiguo, the Secretary of the Party Committee and the Minister of the Department of Transportation.

As a vice president unit of the provincial driving

association, Anhui Sanlian Applied Traffic Technology Co., Ltd., was involved in the initial timing training pilot work in cities such as Hefei and Anqing. The company was invited to provide full support for this conference, with Chairman Wang Jiangbo leading the team, and Vice General Manager Hu Sen, and Director of Strategic Development Gu Tao attending the event. They engaged in in-depth discussions with leaders

of the transportation industry, industry experts, and prominent driving school leaders in attendance. During the meeting, Director Gu Tao delivered a keynote speech on “Exploring a New Path for High-Quality Development of Driver Training Based on the Traffic Police Driving Test 122 Management Platform.” He deeply analyzed the current situation of driver training and examination, focusing on Sanlian’s concept of “real-time training and synchronized examination.” He shared and discussed the exploration and practice of new technologies in driver training at Sanlian, emphasizing the potential use of digital technology for in-depth analysis of drivers’ learning behavior to tailor more personalized teaching services.

At the conference, the company’s independently developed timing terminals and other driving training

products made a dazzling appearance. The shared ideas for driving training development and corresponding strategies received high recognition and praise from the leaders and experts in attendance.

Facing the rapid technological iterations and new demands in the industry, Anhui Sanlian Applied Traffic Technology Co., Ltd. has consistently pursued innovation and adaptation, focusing on driving training and examination. By closely following policy trends, exploring practical scenarios, and continually innovating, the company is actively contributing to the digitization transformation and development of the driving training industry through competitive products and solutions.

## Anhui Sanlian Robotics Technology Co., Ltd. Recognized as First Batch of Anhui Province Enterprise Research and Development Center

According to the “Guidelines for the Construction and Recognition of Anhui Province Enterprise Research and Development Centers (Trial)” (Wan Ke Ji Di [2023] No. 8) and the “Notice on the Implementation of the 2023 Anhui Province Enterprise Research and Development Center Construction and Recognition Work” (Wan Ke Ji Di Mi [2023] No. 239), Anhui Sanlian Robotics Technology Co., Ltd., along with 354 other companies, have been recognized as the 2023 (first batch) Anhui Province Enterprise Research and Development Centers following procedures such as notification, application organization, municipal review and recommendation, formal examination, on-site

verification, and meeting deliberation.

Taking this selection as an opportunity, Anhui Sanlian Robotics Technology Co., Ltd. will leverage the policy support and guidance from the technical innovation platform to continuously seek technological breakthroughs and product innovations in the two major areas of smart elderly care and intelligent rehabilitation. This will facilitate the implementation of smart healthcare products and contribute to the construction of a high-level innovative province.

## Anhui Sanlian University Welcomes a Delegation from Shanghai Institute of Visual Arts for Exchange Visit

On November 15th, a delegation from Shanghai Institute of Visual Arts, led by Chairman Zhu Ziqiang, visited Anhui Sanlian University for an exchange and investigation. The delegation also included Zou Li, Chairman of Xindao (Shanghai) Culture Communication Co., Ltd., Zhang Liang, General Manager of Pinguang Intelligent Environment, Wang Haodong, Office Director of Rongshida Technology Residential Company, and Liu Zhen from Rongshida Group's Brand Department.

The visit was attended by Anhui Sanlian Group Chairman Yu Wansheng and Anhui Sanlian Group CEO Jin Qing. The exchange discussion was also participated in by Zhao Chong, Deputy Secretary of the Party Committee and Vice President, Fu Wei, Vice President, and relevant leaders from the School of Digital Creative Modern Industries.

During the meeting, Yu Wansheng extended a warm welcome to the visiting delegation, and Fu Wei introduced the relevant situation of Anhui Sanlian Group, focusing on the university's overview, main educational characteristics, and significant honors. Zhu Ziqiang expressed gratitude for the warm reception and provided an introduction to the development history, leadership, educational scale, and specialty construction of Shanghai Institute of Visual Arts.

The two parties engaged in discussions on educational philosophies, the construction of academic disciplines, and student cultivation. Following the meeting, both parties visited the Anhui Province Intangible Cultural Heritage Base – the Sanlian University Paper-cut Art Research Center, where they were introduced to various paper-cut works and other cultural and creative products, Received continuous praise from the leaders and teachers present.

This visit served to deepen the communication and mutual learning between Anhui Sanlian University and Shanghai Institute of Visual Arts, laying a solid foundation for further promoting inter-school cooperation.

## A delegation led by the Vice Secretary of the Communist Youth League of Hefei Visited Our University to Exchange Ideas on the Volunteer Work at the Garden Expo and Present a Letter of Gratitude

On the morning of December 27th, Vice Secretary of the Communist Youth League of Hefei, Hong Xin,

Director of the Communist Youth League Office of Hefei, Li Rui, along with Shan Shan, Secretary of the Communist Youth League Committee of Hefei Station, China Railway Shanghai Bureau Group Co., Ltd., visited Anhui Sanlian University to present a letter of gratitude and commemorative badges for the university's volunteer work at the Garden Expo. The meeting was attended by Zhao Chong, Deputy Secretary of the Party Committee and Vice President of Anhui Sanlian University, as well as representatives from the Party Office, Comprehensive Office, and the University Communist Youth League, along with 10 student volunteers from the Garden Expo. The meeting was chaired by Wu Qi, Deputy Secretary of the University Communist Youth League.

During the meeting, the university Communist Youth League teacher, Zhu Yue, provided a summary report on the overall recruitment and management of volunteer services for the Garden Expo, and Gao Yuzhu, a volunteer from the School of Literature, delivered a speech as a student representative.

Shan Shan expressed gratitude and appreciation for the volunteer services during the Garden Expo at Hefei Railway Station and Hefei South Station. Shan Shan highly recognized the university's management model and the quality of its students, expressing a hope for further cooperation to jointly establish a platform for

social practice and volunteer services.

Hong Xin praised Anhui Sanlian University for its outstanding and successful completion of the volunteer work, setting a good example for the city's universities. He highly commended the spirit and excellent performance of the university's 530 outstanding young volunteers. He expressed heartfelt gratitude for the support and help provided by the university's leadership and teachers, and expressed hope for continued support from the university for the Communist Youth League's work, actively promoting the establishment of volunteer service bases in collaboration with universities and the community to create a permanent and dynamic volunteer service brand.

Zhao Chong expressed gratitude for the Communist Youth League's long-term support and emphasized that the volunteer service activity was an important practice for the university in responding to the Communist Youth League's call and contributing to the local economic and social development. He stated that the university will take this opportunity to further strengthen cooperation and communication with the

## Anhui Sanlian University has Established the First Private University in Anhui Province Specializing in Elderly Health and Wellness

On December 21st, Anhui Sanlian University's Elderly Health and Wellness College was officially established, marking the first privately-funded university in Anhui Province dedicated to elderly education. Anhui Sanlian University holds a prominent position as the "Vice President Unit" within the Anhui Elderly Care Association and has been approved by the Anhui Provincial Department of Civil Affairs, the Department of Human Resources and Social Security, and the Department of Education as a "Provincial-level Elderly Care Service Professional Talent Training Base". Additionally, it has also been recognized as a "Elderly Industry Talent Training Base" by the China Aging Development Foundation.

In response to the national strategies of "Healthy China" and "actively addressing the aging population", Anhui Sanlian University has established the Institute of Modern Health and Wellness, actively promoting the construction of the Elderly Health

and Wellness College. The university further aims to enhance the development of related disciplines and majors in health and wellness, improve the training of urgently needed applied health and wellness talents, and fulfill its social responsibility by serving the local economic and social development.

The Elderly Health and Wellness College at Anhui Sanlian University upholds the mission of "promoting active health for the elderly, fostering moral character, lifelong learning, enjoying life, and taking proactive

actions” , aiming to meet the lifelong learning, physical and mental health enhancement, and social development needs of the elderly. The college’ s distinctive feature lies in health and wellness education services for the elderly, offering five categories of courses to the public, including traditional Chinese medicine health management, traditional Chinese medicine wellness techniques, exercise and wellness, interest-based cultural activities, and family health education. These courses are designed to guide the elderly in strengthening their self-care and disease prevention awareness, learning about health maintenance and

common diseases prevention, and ultimately helping them improve their quality of life while meeting their spiritual and cultural needs.

“Do not say the mulberry leaves are falling; to the west my heart is full of glowing sunlight,” reflects its commitment to creating a platform for the elderly to engage in lifelong learning and to support the high-quality development of elderly education and care in the new era.

## Anhui Sanlian University held the Fourth Faculty Representative Conference and the Trade Union Member Representative Conference

On December 26th, the Fourth Faculty Representative Conference and the Trade Union Member Representative Conference of Anhui Sanlian University were successfully held at the Academic Lecture Hall of the Library. Li Xiaoyan, the Director of the Women’ s Committee of the Anhui Provincial Education, Science, Health, and Sports Union, and a level three researcher, attended the conference to provide guidance. Professor

Jin Huiqing, President of Anhui Sanlian University, Wang Guanghu, Commissioner for Education Supervision of Anhui Province and Secretary of the University Party Committee, and Yu Wansheng, the Chairman of the University Board of Directors, along with other leaders of the university in Hefei, were seated on the podium. The conference was attended by 165 official representatives and 10 attending representatives.

The meeting was presided over by Zhao Chong, Deputy Secretary of the University Party Committee and Vice President.

At 9:15 am, the preparatory meeting approved the list of the conference presidium, secretary-general, deputy secretaries-general, and the main agenda of the conference. The preparatory work report, the qualification examination report of the representatives, and the proposal work report were reviewed in writing.

At 9:30 am, the conference commenced with the solemn national anthem.

Li Xiaoyan, on behalf of the Anhui Provincial Education, Science, Health, and Sports Union, expressed warm congratulations on the convening of the conference. She emphasized that Anhui Sanlian University has actively aligned with the province's ten major strategic emerging industries, continuously optimized applied disciplines and professional groups, and made significant contributions to the development of higher education in Anhui. In addition, the university has effectively implemented the deployments of the 18th National Congress of the Chinese Trade Union and the 15th Anhui Trade Union, fulfilling the duties of the faculty representative conference and the trade union. She put forward several suggestions on behalf of the provincial union. Firstly, we will strengthen ideological guidance and consolidate a strong tie for workers, so that they unwaveringly follow the Party's leadership and directions. Secondly, we will adhere to the theme of the era of labor movement, leading workers to actively embark on a new journey and become the main force in building a new era. Thirdly, we will focus on core responsibilities and industries, continuously meeting the new expectations of workers for a better life. Finally, we will persist in strengthening self-revolution and fully

demonstrate the new outlook of the trade union, party construction, and our own reform and innovation.

Executive Vice President Jiang Xiuli delivered a report titled "Forge Ahead in a New Journey, Create New Brilliance, and Fully Promote the High-quality Development of the University" at the conference. The report reviewed the achievements of the university in thirteen aspects over the past five years, including party construction and ideological and political work, discipline and specialty construction, talent cultivation, faculty team construction, scientific research and innovation, industry-education integration, governance system and capacity, financial management, student management and services, student aid, campus construction, and campus culture. It also outlined the key tasks for the next five years in fourteen areas.

Wang Feng, Vice Chairman of the University Trade Union, presented the "Be Confident, Be Strong, Adhere to Innovation, and Strive for the High-Quality Development of the University" trade union work report.

After the opening ceremony, nine delegations conducted discussions and deliberations on the conference election regulations (draft), as well as reports and documents. The representatives fulfilled their responsibilities and actively provided suggestions. At 1:30 pm, Wang Feng chaired a meeting of the Presidium of the Faculty Representative Conference in Room 412 of the library to hear reports on the deliberations of the delegations.

At 2 pm, the second plenary session voted to pass the "Draft Election Regulations for the Fourth Faculty Representative Conference and the Trade Union Member Representative Conference of Anhui Sanlian University," as well as the proposed lists for

supervisors, vote counters, announce counters, and tally counters. The election of the Executive Committee of the Fourth Faculty Representative Conference, the Fourth Trade Union Committee, and the Fourth Trade Union Fund Review Committee was conducted. The Presidium held a third meeting to hear the report on the election results.

Finally, the conference announced the elected members of the Executive Committee of the Fourth Faculty Representative Conference, the Trade Union Committee, and the Trade Union Fund Review Committee, and passed the conference resolution. The conference concluded with the solemn singing of “The Internationale.”

After the conference, the university convened separate meetings for the Executive Committee of

the Faculty Representative Conference, the Trade Union Committee, and the Trade Union Fund Review Committee. Jiang Xiuli was elected as the Chairperson of the Faculty Representative Conference Executive Committee, and Song Menglan was elected as the Vice Chairperson. Wang Feng was elected as the Chairman of the Trade Union, and Yang Xianfang and Liu Xiaorong were elected as Vice Chairpersons. ## **The 2023 Working Conference of the Japanese Language and Literature Branch of the Anhui Foreign Language and Literature Association and the Non-General Language Teaching Committee was Successfully Held at Anhui Sanlian University**

On December 9, the 2023 Working Conference of the Japanese Language and Literature Branch of the Anhui Foreign Language and Literature Association

and the Non-General Language Teaching Committee was held at Anhui Sanlian University. The conference, themed “Construction and Development of Non-General Language Foreign Language Majors,” was attended by Professor Zhu Yue, President of the Anhui Foreign Language and Literature Association, Professor Zhang Shiwei, Special Assistant to the President of Anhui Sanlian University, along with professors Wang Yihong from Nanjing University and Zhao Jin from Tongji University. The opening ceremony was presided over by Professor Tang Qianyou, Vice Dean of the School of Foreign Studies at Anhui University and

Executive President of the Japanese Language and Literature Branch of the Anhui Foreign Language and Literature Association, who also serves as the Director of the Non-General Language Teaching Committee. Representatives from 16 universities in Anhui Province responsible for Japanese language majors and teachers attended the conference. Anhui Sanlian University, as the presiding unit, hosted the conference.

During the conference, thematic reports were presented by Wang Yihong, Zhao Jin, and Tang Qianyou on “Reflections on the Teaching and Research of Japanese Literature in the New Era,” “The Content and Methods of Ideological and Political Education in University Foreign Language Courses,” and “The Scope and Cases of Linguistic Research in Non-General Vision,” respectively. The reports covered Japanese literature, ideological and political education in foreign language courses, and Japanese linguistics, guiding teachers and students to pay attention to research in these aspects. Attendees expressed that they benefited greatly from the reports and expanded their academic horizons.

Representatives from six universities, including Anhui University, Anhui Normal University, and Anhui Agricultural University, shared their distinctive practices in the construction of their Japanese language majors and teaching reforms. Additionally,

representatives from eight universities, including Hefei University of Technology, Anhui Sanlian University, Anhui University of Foreign Studies, and Huaibei Normal University, shared the current status of Japanese language education in their respective institutions. Professor Liu Changsheng, representing Japanese language teachers, exchanged experiences on the changes in the Japanese language learning environment and the influencing factors on university Japanese language education. Furthermore, representatives from Anhui University of Finance and Economics, Anhui University of Engineering, and Shenzhen Marshub Co., Ltd. shared their experiences on the direction and challenges of foreign language talent cultivation.

In his concluding remarks, Tang Qianyou fully affirmed the fruitful achievements of the conference and encouraged all the representatives to actively respond to the new challenges in the field of foreign language disciplines, aiming to collaboratively create a better future for non-general language education in Anhui. He also expressed heartfelt gratitude to Anhui Sanlian University, Sanlian Education and Training School, and Shenzhen Marshub Co., Ltd. for their organization and sponsorship of the conference.

## **The 4th Anime Art Festival of Anhui Sanlian University Concluded Successfully**

On November 25, the 4th Anime Art Festival of Anhui Sanlian University, jointly hosted by the Institute of Digital Creative Industries and the University Student Union, was successfully held. Attending the event

were Huang Zheng, Supervisor of the Anhui Province Association of Digital Creative Industries, Zhu Guodong, Deputy Secretary-General, Gao Hua, CEO of Shanghai Lile Digital Technology Co., Ltd., Wei Chang, Asia-

Pacific Business Director of Movella, and Lin Yongmin, Founder of the GGAC Global Game Anime Art Concept Contest, as well as Cai Wenfen, Vice President of Anhui Sanlian University, Pan Tao, Dean of the Institute of Digital Creative Industries, and David Lin, Vice Dean and Chief Engineer, with the opening ceremony moderated by Sun Yi, Vice Dean of the Institute of Digital Creative Industries.

During the opening ceremony, Cai Wenfen extended a warm welcome to the leaders and guests attending the Anime Art Festival and congratulated the successful hosting of the 4th festival. She expressed her hope that through hosting the festival, it would promote the development and exchange of digital art disciplines in universities in the province. Gao Hua stated in his address that they would continue to provide high-quality resources to the university and fully support the rapid development of the Institute of Digital Creative Industries. Subsequently, Gao Hua, Wei Chang, Pan Tao, and David Lin jointly unveiled the plaque for the “RDS Studio,” a project integrating industry and education at the Institute of Digital Creative Industries.

Following the unveiling ceremony, Pan Tao accompanied representatives from the Anhui Province Association of Digital Creative Industries and business partners to view the anime artwork exhibition, visit

the university’s intangible cultural heritage training base and digital image production training base, and engage in discussions. During the symposium, Pan Tao introduced the current development status of the Institute of Digital Creative Industries and in-depth discussions were held between the university and its industry partners on how to better cultivate versatile talents in digital creative industries.

The Anime Art Festival featured a rich array of activities. At the Anime Digital Creative Sharing Session, Lin Yongmin introduced outstanding works from the GGAC competition in recent years, analyzing and interpreting the creative thinking and presentation techniques of these works. Following the sharing session, cosplayers gathered on stage, delivering exciting anime performances for anime enthusiasts at the library multifunction hall and the street stage.

The successful hosting of the Anime Art Festival provided a platform for anime art enthusiasts to exchange ideas, hone their skills, and showcase their talents, creating a vibrant campus atmosphere for anime art lovers. Anhui Sanlian University has always attached great importance to the development of art disciplines. In recent years, significant progress has been made in teaching, research, and creative work in the field of art. The hosting and inheritance of the Anime Art Festival

will further promote the high-quality development of the Institute of Digital Creative Industries at the university and actively contribute to the prosperity of the province's digital creative industries, embodying the

creative spirit of Sanlian.

## **Vice Chairman Zhao Rong of the Feidong County Political Consultative Conference and His Delegation Visited Anhui Medical and Health School for Research and Guidance**

On November 10, Vice Chairman Zhao Rong and his delegation from Feidong County Political Consultative Conference visited Anhui Medical and Health School for research. The school leaders Qin Yongyuan and Wang Wei accompanied the delegation.

During the visit, the delegation conducted on-site research by inspecting the teaching and living areas, observing student practical training in the teaching area, and gaining detailed understanding of the practical training rooms and specimen display rooms in departments such as internal medicine, medical imaging, and online emergency care. Principal Wang Wei warmly welcomed the guidance and support from the members of the County Political Consultative Conference, and provided a brief report on the school's

history and conditions.

In the living area, the delegation delved into the cafeteria to assess food safety, and Chairman Qin Yongyuan reported on campus safety and logistical support. The delegation inquired about the difficulties faced by the school in its development process, and expressed specific requirements and earnest expectations for the further development and construction of the school.

Through the on-site research, the delegation fully affirmed the school's characteristics and achievements, hoping that the school can leverage the brand advantages of "Anhui Medical and Health School" to overcome difficulties, continuously improve the quality of education, and contribute to the development of vocational education in Feidong County.

Anhui Medical and Health School will take this research as an opportunity to unite and make efforts, and strive to make progress on a new journey, advancing further and farther.

## Anhui Medical and Health School Achieved Outstanding Results in the “Three Excellences” Competition for Vocational Schools in Anhui Province in 2023

On November 30, the Anhui Provincial Institute of Educational Science released a notice on the Anhui Education Cloud Platform, announcing the results of the selection of outstanding papers, excellent teaching software, and quality courses in Anhui’s secondary vocational schools for 2023. According to the notice, Anhui Medical and Health School in Hefei had a total of 4 teachers awarded. Among them, teachers Wang Qiong and Wang Zifeng respectively won the first and third prizes in the provincial quality course competition, while teachers Yang Xuemin and Sha Wen respectively won the second and third prizes in the provincial excellent teaching software competition.

Anhui Hefei Medical and Health School has actively carried out various forms of educational research activities, allowing teachers to immerse themselves in scholarly research and grow in a good teaching atmosphere. In the “Three Excellences” competition, from the city level to the provincial level, the school made early preparations, continuously polished the competition works, and all teachers devoted themselves wholeheartedly to the competition. The awards in this competition not only recognize the teachers’ research and teaching achievements but also serve as an encouragement for them.

“Great rivers have humble beginnings, and waves rise on still waters.” The “Three Excellences” competition is not only a stage for teachers to showcase

their teaching skills but also an important means to promote their professional growth. It not only motivates the teachers to actively and consciously explore classroom teaching but also ignites their passion for work, unearths teaching wisdom, and thus enhances the overall quality of education, teaching, and research in the school.

Though thousands of trials and tribulations may be arduous, one will eventually strike gold after exhausting all efforts. The results of this competition not only demonstrate the teachers’ fervent enthusiasm for teaching and their remarkable teaching style but also will inspire all teachers to be tireless in their pursuit of knowledge, relentless in their dedication, and resolute in their progress, bravely scaling new heights, and illuminating the path for the students in the future.

## Anhui Medical and Health School held the 2023 Hefei City Skills Competition Summary and Commendation Ceremony as well as the Provincial Competition Departure Ceremony

On December 14, Anhui Hefei Medical and Health School held the 2023 Hefei City Skills Competition Summary and Commendation Ceremony as well as the 2023 Provincial Competition Departure Ceremony in the auditorium on the first floor of the teaching building. School leaders Wang Wei, Hu Junjian, Xu Jingjing, and Wang Daolin attended the meeting, along with participating teachers and students as well as student representatives from various classes. The event was hosted by Director Xiong Yongling.

The event began with the solemn national anthem, followed by the reading of the award documents for the city competition winners by Director Sha Wen from the Academic Affairs Office. School leaders then presented awards to the winning students and guiding teachers.

Representative teacher Yin Zhongqin, who will guide all students participating in the provincial competition, led the students in taking the oath, expressing their determination to prepare earnestly, study diligently, and strive to achieve satisfactory

results.

In her speech, representative teacher Wang Qiong expressed gratitude for the support from the school leaders, the cooperation of colleagues, and the diligence of the students. She also mentioned that the competition will serve as a new starting point, with a commitment to earnestly summarize the experience and rules of the competition, continuously improve vocational skills and comprehensive qualities, and face new challenges.

Student representative Hu Shiqing, who won in the Hefei City Skills Competition, expressed gratitude to the leaders and teachers, and stated her determination to work hard with her classmates to master professional knowledge and skills, and become an outstanding talent with mature thinking, solid knowledge, and proficient skills. Another student representative, Liu Luna, who will participate in the provincial competition, vowed to cherish the opportunity provided by the school, train hard with a spirit of perseverance, and strive for outstanding achievements, bringing honor to herself and the school.

Principal Wang Wei presented the provincial competition team with the flag and delivered a mobilization speech, emphasizing that all teachers and students should not be complacent with their current achievements. She highlighted the importance of recognizing that skills competitions are a new method to promote the training of professional skilled talents in vocational schools. She encouraged all participants to firmly grasp their goals, persevere with determination,

and make unremitting efforts to propel the school to surpass and excel once again.

Anhui Medical and Health School has always fully utilized the important role of skills competitions in talent cultivation, implementing the application-oriented talent cultivation method of promoting

teaching, learning, and training through competitions, and continuously improving the quality of application-oriented talent cultivation.
