

## 弘扬劳动精神 绽放青春芳华

繁花似锦的五月，又一年的“五一”国际劳动节与“五四”青年节如期而至。这两个特殊的节日，不仅是对劳动精神的深情礼赞，更是对青春奋斗的热烈颂扬。作为新时代的青年，我们以劳动为美，以奋斗为荣，用勤劳创造的双手谱写新时代的劳动者之歌。

青春在劳动中熠熠闪光。一百多年前，一批批热血青年为了理想信念、为了民族独立、为了人民解放，义无反顾，无怨无悔地奋斗在第一线。一百多年后的今天，新一代的中国青年毅然接过前辈们手中的接力棒，他们敢于担当、勇于实践，带着理论知识寻找实践坐标，带着心中热爱奔赴山海，用劳动书写属于自己的精彩篇章，用奋斗铸就自己的辉煌梦想，让自己的青春绽放出耀眼的光芒。

劳动是青年成长的必修课。劳动是中华民族的传统美德，也是历练人生的最好课堂。在劳动中，我们学会了坚持和毅力，学会在面对困难和挫折时，不退缩、不气馁，而是以无畏的姿态迎接每一个挑战与机遇。在劳动中，我们强化了团结协作与互助共进的精神，深刻体会到“众人拾柴火焰高”的道

理，更学会了从失败中汲取宝贵的经验，从挫折中寻找希望的窗口。

劳动不止，青春不息。正值风华正茂的我们，用汗水浇灌梦想，用奋斗书写未来，让劳动的硕果成为我们青春岁月中最闪耀的勋章。校园里，我们积极投身于各类志愿服务活动，主动帮助同学解决疑难困惑、踊跃参与社区环保行动；校园外，我们即使身处平凡的岗位，仍可以用心去感受每一份责任，用行动去践行每一个承诺，用智慧去应对每一个挑战。我们以实际行动传递关爱、服务社会，在劳动中体验着汗水与智慧的交织，感受着付出与收获的喜悦。

习近平总书记指出：“劳动是一切幸福的源泉。”作为新时代的青年学子，让我们以劳动为犁，深耕青春梦想，以劳动为舟，驶向理想彼岸，让青春的翅膀在磨砺中更坚强，让青春的精气神在奋斗中更挺拔，用我们青春的智慧和汗水为祖国的繁荣富强贡献力量，书写新时代的华彩篇章。

## 艾香悠悠 端午情长

恰逢端午佳节之际，家家洒扫庭除，将艾草挂于门楣，寓以招百福；在节日的清晨，各家大人起床后将孩子们的手腕上系上五彩绳，寓以五行吉祥；更少不了的便是吃粽子的习俗，无论是古今和地域的变化，人人都在坚守。种种习俗叠加，便构成了我记忆中的端午。

端午作为我国的传统节日，最值得一提的便是它的由来。有人说，是由于楚国大夫屈原在听到秦军攻破楚国京都后，悲愤地写下绝笔作《怀沙》，投入汨罗江以身殉国。沿江的百姓们知道后，都纷纷载船前去打捞，并将粽子投入江中，以免鱼虾蚕食他的身体。后来便在这天形成了吃粽子的习俗。因此，端午节又被称为“粽子节”。也有人说，1983年，刘德谦先生在《端午始源有一说》中，认为端午来自夏、商、周时期的夏至，他的解释源于《岁华纪而》中对端午的描述为“日叶正阳，时当中夏。”即端午节处于夏季之中，因此，端午节又被称作“夏节”“天中节”。而有关竞渡、吃粽子的习俗，隋代人都将它们视为夏至日的娱乐活动，而并非打捞投江的诗人屈原。历史已经过去久远，对于它的由来也是众说纷纭，而对于现在的我们来说，便是去珍惜这个饱含故事和记忆的节日。

“端午临中夏，时清日复长。”端午作为传统节日之一，也寓意着家庭的团圆，虽不及春节的隆重，也不及清明的萧瑟，但它是完完全全没有别的

感情掺杂的节日，在这一天，我们只为祈祝康健。前一天家人们便早早地准备好艾草放在家门前，然后一群人开始洗糯米、洗粽叶、准备食材的工作，我站在一旁，看着红枣、蛋黄、腊肉一个一个被塞在糯米里，丝线在粽叶上缠绕，在大家的合作下便产生了一堆整整齐齐地准备进入蒸锅里的三角糯米粽。不一会儿，一缕属于粽叶的清香便涌入鼻腔，让我们对这些好吃又好看的粽子垂涎三尺。

“旧与新、往昔与现在，并不是敌对状态，它们在时光行程中互相辨认，以美为最后归依。”随着国家近年来对传统文化的重视，传统节日的地位也在与日俱增。2021年河南卫视端午晚会上表演的《祈》以先进的创作理念和技术手段展现了富有古典浪漫主义元素的《洛神赋》中“翩若惊鸿，婉若游龙”的洛神形象，2022年的群舞《飞龙在天》又再一次给观众带来了视觉和感受的双重震撼。植根于传统文化，节目通过对古时系五彩线、拜祭龙组、祈福辟邪传统节日场景的再现，增强了当代人的文化自信，在以文化底蕴为财富的基础上，讲述了更多的中国故事。

百里不同风，千里不同俗。每个地方对于传统文化庆祝的方式可能有所不同，但是对传统节日的敬畏与喜爱是相同的，端午佳节寄托的不只是历史的情长、家人的挂念，还有我们对未来的祈愿。

## The Research Team from the People's Daily's People's Tribune Investigated the Integration of +Industry and Education in Anhui Sanlian University

From June 5th to 7th, a research team from the People's Daily's People's Tribune visited Anhui Sanlian University (Anhui Sanlian University) to conduct a specialized investigation on integrating industry and education. The team included experts such as Academician Tan Jianrong from Zhejiang University, Zhang Xingchen, former Vice President of Beijing Jiaotong University and Vice Chairman of the China Transportation Education Association, Jiang Bo, former Vice President of Tongji University and Vice Chairman of the China Adult Education Association, Zhang Zhiyong, National Committee Member of the Chinese People's Political Consultative Conference (CPPCC) and Director of the National High-End Think Tank on Education at Beijing Normal University, Ding Jinchang, Associate Professor and Vice Chairman of the China Vocational Education Association, and Chen Yangbo, Deputy Editor-in-Chief of People's Tribune Magazine and Editor-in-Chief of People's Tribune Net (Research

Convener). These experts and scholars convened at Sanlian for an on-site investigation into Sanlian's efforts in integrating industry and education. Professor Jin Huiqing, founder of Sanlian and president of Anhui Sanlian University, along with relevant university and Industry-College Institute leaders, accompanied the research.

During the symposium, Vice President Jiang Xiuli reported on the basic situation of Anhui Sanlian Group, the integration of industry and education at Anhui Sanlian University, and the status of structural reforms. She emphasized that over nearly 30 years of operation, the university has progressed through three stages of industry-education integration—integration, communication, and fusion—while consistently adhering to party leadership. Through innovative comprehensive management reforms, building clusters of disciplines, and fostering dual-capable personnel, the university has comprehensively promoted coordinated education with industry, actively aligning with local economic and industrial development, and accelerating the construction of a high-level applied university.

President Jin Huiqing stressed that since its inception, the university has embraced the integrated development “gene” of industry, academia, and research within the group, boldly innovating and learning from trial and error. They have gradually perfected mechanisms for coordinated education with

industry, promoted “flattened” management and structural reforms, and focused on cultivating highly qualified talents urgently needed by industries. He hopes that through the tireless efforts of the Sanlian community, Anhui Sanlian University will become a distinctive benchmark institution in integrating industry and education, contributing the “Sanlian Approach” to the economic and social development of Anhui and promoting educational system reform.

The People’s Tribune research team highly commended Anhui Sanlian University’s practical achievements and educational effectiveness in integrating industry and education, offering suggestions and feedback. Tan Jianrong pointed out that as Anhui Province’s first private university, Sanlian University has outstanding academic performance and a notable feature of industry–education integration, with graduates well received by employers. The experts unanimously agreed that under the leadership of a founder who embodies roles of scientist, entrepreneur, and educator, Sanlian University has dared to innovate and practice, departing from the traditional approach of organizing secondary departments based on disciplines and instead restructuring disciplinary clusters oriented towards industries. This approach has truly achieved integrated

development of education, science and technology, and talent, forming a favorable trend of “sweet outcomes” for both the university and enterprises, and providing vivid examples with evident political, theoretical, and social values. The expert group expressed the need to further refine and summarize the “Sanlian Model,” narrate the story of Sanlian’s integration of industry and education, enhance the sustainability and longevity of the university’s development, and offer beneficial insights for the development of other private universities.

During the investigation, the People’s Tribune research team of experts visited the Smart Transportation Modern Industry Institute, Digital Creative Modern Industry Institute, Modern Health Industry Institute, and Paper Cutting Art Research Center for on-site inspections. They also visited jointly established units such as Anhui Sanlian Applied Traffic Technology Company and Anhui Sanlian Robot Technology Co., Ltd., to gain deeper insights into Sanlian’s practical experiences and highlights in promoting the development of industry–education integration. At the symposium, leaders from Anhui Sanlian Group and relevant departments of Anhui Sanlian University delivered speeches and exchanged views with the research team of experts.

It is reported that People’s Tribune Network, People’s Tribune Magazine, and the People’s Tribune Multimedia Platform will continue to report on Sanlian’s exploration of and achievements in integrating industry and education.

During the oath-taking segment, students raised their right hands solemnly pledging: “I volunteer to dedicate myself to the nursing cause... firm in the conviction to save lives and assist the wounded, respect the rights of patients, and fulfill the duties of a nurse. Treat every patient with sincerity, compassion, and a sense of responsibility, preserving the sanctity of the angel in white...” Each resolute oath resounded in the hearts of everyone, deeply impressing upon the students the sacredness, mission, and responsibility of the profession they are engaged in.
